Predictions For These Celebrity Couples

Katy Perry and Orlando Bloom: Looks like Katy Perry has landed

herself a Hollywood hottie. This time it's actor Orlando Bloom starring as her leading man. While it's easy to see why they would be attracted to one another, this coupling is an odd match. Perry has a habit of moving quickly in relationships. No one can ever say that she doesn't throw all of herself in, except her ex-husband Russell Brand. Since that relationship, she seems to be a "ride or die" kinda girl. In other words, all the way in. Recently, she and Bloom were spotted on vacation in Hawaii. It was officially their first outing to confirm that they are the newest Hollywood couple. While Bloom has introduced his son to Perry, this relationship does not have staying power. He will kick her to the curb once he gets bored of her. Expect him to move on from the singer to an actress with whom he will get very serious. Perry wants a stable, loving and long-term relationship. She may need an older, established man for this to happen. Moving away from a man like John Mayer and going toward Orlando Bloom is a step in the right direction. She just needs to keep looking to find the love that she wants.

Sarah Paulson and Holland Taylor: When Paulson and Taylor announced that they were the latest celebrity couple, it caused quite the stir. There hadn't even been celebrity gossip that they were dating. The lovely ladies had known each other for years before their romance blossomed. Exchanging messages on Twitter is what initiated their first date. Paulson has stated that she is absolutely in love with Taylor and their 31 year age difference isn't an issue. This is not the first time Paulson has dated an older woman. The deep love and respect in their relationship will only continue to grow. I predict that these lovely ladies will get married by the end of the year. This will give Ellen and Portia a run for their money as the hottest lesbian couple in Hollywood.

Gwyneth Paltrow and Brad Falchuk: While Chris Martin dates around, it looks like Gwyneth Paltrow has the desire to have another celebrity wedding. Could it be to current boyfriend Brad Falchuk? Hold up on the wedding invitations. There is something about this relationship that reads "not quite right." They should end this before it becomes a big 'ole nasty mess. Falchuk is trying to make Paltrow happy by giving into her high maintenance ways. He thinks that she can elevate him while in reality the relationship is taking him further away from who he is. Paltrow is used to getting things her way. This is a dead end. They should move on. Falchuk should call his soon to be ex-wife, maybe she will take him back. Paltrow should date around for a change, have some fun. Maybe she and Ben Affleck could go out together and revisit old times.
