Cupid's Advice:

Breaking up is a big deal and shouldn't be done lightly, but there are definitely some instances where it's warranted. Cupid has some good reasons it's time to call it quits:

- 1. They're too clingy:** At first, it's nice to be with someone who showers you with constant attention. But if they get angry or disappointed every time you go out with your friends or when you need a night to yourself then its time to take a step back and re-evaluate how healthy this relationship really is.

2. They don't make time for you: Even Prince Charming might forget to respond to a text every so often or be forced to cancel plans when something important comes up. But if you're never able to pin down your guy to hang out, that doesn't give you much time to have an actual relationship. This kind of guy typically isn't looking for anything serious, and if you are, then it's time to move on.

3. You can't trust them: No one likes a liar. If you have serious doubts about where they were when they said they were working late or worse, you catch them in a lie, it's time to dump them.
