## Cupid's Advice:

Talking to your crush can be hard. You don't know if you will say the wrong thing or you'll look silly in front of them. Trying your best to fit in and look good while doing it is hard enough. Getting your crush's attention without them noticing can be a task. There are some ways that you can initiate conversation smoothly. Cupid has some advice on how to approach your crush:

**1. Watch your crush from a distance:** Now, I don't mean stalking them on Instagram or in person, but take notice of how they move throughout the day. If you're looking for a partner who takes pride in their work and how they carry themselves, look to see if your crush has those qualities. Try to find any red flags if possible. See if there are any alarms that go off.

**2. Talk to them first:** We all wait for our crush to approach us, but what about going up to them first? You don't have to necessarily tell them that you're interested. Just have a simple conversation. If you both are in the same friend group, try to get to know them on a more personal level. Look to see if the vibe is there.

**3. Ask them to go out with you:** This doesn't have to be a date, but try to hang out more with the person overall. Start with something small. Meet them at a local bar or at the movie theater. Try to go to a place that they have mentioned before in a previous conversation. Relax while you're with them. They, too, might be attracted to you.
