How do you know if your partner is a bad influence?

Cupid's Advice:

Your significant other is supposed to bring out the best in you, but sometimes he or she may have the opposite affect. Here are some ways to tell your partner is a bad influence:

1. You do things that you used to feel were wrong: Doing things you wouldn't normally do can often be a good thing, as your partner should encourage you to come out of your shell. That said, if you find yourself partaking in things that used to trigger your moral radar, it's time to come to your senses.

2. You're breaking the law: This may seem obvious, but if you find yourself doing drugs you never used to consider or driving after drinking as you used to refrain from, beware of the bad influence.

3. Your friends are pulling away: One great way to tell that your partner is changing you for the worse is to judge your friend's reactions. If you notice the contact you have with your friends is dwindling, it could be because of the negative affect your mate is having on you.
