

Giveaway: Tsubo Kemma Boots Offer Fashion and Function For Your Night Out

This post is sponsored by Tsubo.

Maybe you're one of those women who thinks guys aren't paying attention to what you wear on a date. Or, perhaps you're the type who always sacrifices comfort for the sake of fashion. After all, fashion and comfort couldn't possibly go hand-in-hand, could they? Well, we just found a company that designs amazing shoes that seamlessly fuse both!

Tsubo, Japanese for "Pressure Point," designs shoes that are fashion forward and extremely comfortable. Tsubo men's shoes, women's shoes and [Tsubo sneakers](#) combine fresh style with signature Pod technology, strategically placed cushioning

at the foot's pressure points that provide amazing comfort.

We gave Kemma, the classic black ankle boot pictured above, a test drive by walking 25 city blocks to see if these boots could really stand up to the concrete slabs. We were prepared for a nice long foot massage and pain killers after the walk but surprisingly, that wasn't the case at all. The Kemma's not only held up, but so did our feet! These are the perfect boots for your next date night; a classic boot with wonderful design and when you slip them on your feet...complete heaven!

Now, one lucky CupidsPulse.com visitor will have the opportunity to enter for a chance to win a pair of their very own Kemma's valued at \$190.00. Here's all you need to do:
