Music, like love, is a language that isn't necessarily spoken but is still felt by those who experience it. For all of the music lovers out there, we have the perfect opportunity for you. Thanks to Lenovo and Microsoft, music creators and enthusiasts can enter daily to win Lenovo products, other cool tech/music gear, and, of course, the grand prize: a trip for two to Los Angeles as well as two three-day VIP passes to

Coachella, one of the largest, most popular music festivals in California, from April 10-12, 2015.

The Team Up with Timbaland Sweepstakes, which is presented by Lenovo and Microsoft, runs from Monday, September 29 until Wednesday, October 22. Encourage your man to enter with you to double your chances of landing this once-in-a-lifetime VIP getaway! Contestants can enter multiple times to increase their chances but are only allowed to enter once per day until the contest ends. You must be 18 or older and a legal resident of the U.S. to enter. Don't miss out on what could be an unforgettable weekend for you and your honey. Listen to the beat of the music and fall deeper in love!

Plus, in early August, Lenovo and Microsoft teamed up with Timbaland to launch a contest that empowered independent musicians as well as their fans. More than 5,000 singers, songwriters, and music artists have entered to be contestants in the Team Up with Timbaland Song Contest – and there are still two days left to enter! The contest has received shout-outs from amazing artists that you and your sweetheart love, including Missy Elliot, Lil Kim, and Snoop Dogg.

After the contest closes on Sunday, September 28, Timbaland and a team of judges will review the entries and judge the songs based on creativity, originality, and recording appeal. They will narrow them down to the top five finalists, who will be announced in mid-October. They will each be given a two-week surprise musical challenge, and Timbaland will pick one winner, who will receive a day in the recording studio with him in Miami. We wish you all the best of luck!
