Cupid's Advice:

Some people are really in a rush to have kids after they get married, and the more power to them! We aren't all in that frame of mind, though, and there are plenty of reasons to hold off on having kids at first. Cupid has some insight:

- 1. Financial security:** Before bringing a child into the world, you want to make sure you can provide for him or her. If you're not where you want to be financially yet, then take

some time to build up a foundation. Once you feel secure, consider adding to your family.

2. Solid relationship foundation: Sure, your relationship is secure enough to get married, but as they say, the first year of marriage can be tough. Make sure that you've made your marriage work before adding any undue stress to the relationship and love by having a kid. The last thing you want to happen is incessant fighting around your new baby.
