Cupid's Advice:

There's a commonly held belief that people should keep their personal and professional lives completely separate. Cupid has some reasons it might actually be a good idea to work with your partner:

1. You know each other: Chances are that you know your partner better than almost anyone else in your life. In a work environment, you can achieve efficiency easier with your partner because you're able to see eye-to-eye on things.

2. Motivations are the same: In a professional setting, you often start to question your co-workers' motivations and wonder if they match your own. Especially if you're married, you and your partner's motivations are pretty much guaranteed to be the same. You're working for a common cause.

3. Enables understanding: The best thing about working with your partner is that it allows you to better understand each other. Instead of having a big portion of your life off-limits, your mate knows exactly where you've been all day and exactly what you've achieved. There's no mystery!
