

ROB PATTINSON AND KRISTEN STEWART SHOOT PROVOCATIVE SCENE FOR NEW TWILIGHT MOVIE

It looks like *Twilight* lovers Robert Pattinson and Kristen Stewart will be getting hot and heavy in the third installment of the popular sci-fi movies, according to *Digital Spy*. The duo, who also spend quality time together as a couple off-screen, were caught in a compromising position in the most recently released photo from the film.

Pattinson and Stewart met on the set of the first installment of *Twilight* and have been keeping their relationship under wraps ever since.

Despite their professional partnership, the two seem to be in it for the long haul. Is it OK to work professionally with your partner?

Cupid's Advice:

There's a commonly held belief that people should keep their personal and professional lives completely separate. Cupid has some reasons it might actually be a good idea to work with your partner:

1. You know each other: Chances are that you know your partner better than almost anyone else in your life. In a work environment, you can achieve efficiency easier with your partner because you're able to see eye-to-eye on things.

2. Motivations are the same: In a professional setting, you often start to question your co-workers' motivations and wonder if they match your own. Especially if you're married, you and your partner's motivations are pretty much guaranteed to be the same. You're working for a common cause.

3. Enables understanding: The best thing about working with your partner is that it allows you to better understand each other. Instead of having a big portion of your life off-limits, your mate knows exactly where you've been all day and exactly what you've achieved. There's no mystery!
