Is Katie Maloney fat because of pregnancy? (Screen grab from Instagram @musicillskate)

Is Katie Maloney fat or is she finally pregnant? Fans are still waiting for the big news. Because of this, every photo uploaded on the actress' social media accounts seem to look a bit "healthier" for her supporters, as if they see an imaginary baby bump.

Katie and Tom Schwartz tied the knot last August but fans, since the couple walked down the aisle, had one more question in mind: when will the babies come? Well, just when indeed.

Katie Maloney Fat - Is she ready to be a mom?

So far, it appears, Katie is not yet ready for children. In fact, as reported by the *Inquirer*, Stassi Schroeder said that Brittany Cartwright, Jax Taylor's girlfriend, is more likely to get pregnant first. Stassi is no less than Katie's best friend.

On the other hand, according to *Blasting News*, Katie would like to enjoy her married life first and focus on being Tom's wife before becoming a mother to their (future) children. At the moment, she and her co-stars - Sheana Marie Shay, Stassi, and Kristen Doute - prepare for the fifth season of *Vanderpump Rules*.

"I definitely want us to enjoy being married for a bit before we start having kids. And that's why I want to get the ball moving - I'm young, but I'm not getting younger," Katie said to *Cupid's Pulse*. Katie got her engagement ring during the fourth season of *Vanderpump Rules* and made it official a year after.

Katie Maloney Fat: An optical illusion

Surprisingly, this was not the first time Katie got involved in a pregnancy rumor. Last March 2015, the same issue popped out and Katie denied it as well. The baby bump (and the fat) that fans were reportedly seeing, sad to say, had always been nothing but an optical illusion.

She is happy to have married her best friend, describing her wedding day to be nothing short of an amazing experience. It was witnessed by just over 100 guests (family and closest friends), secluded in the woods, and enchanted by Katie's elegant wedding dress.

At the moment, all we can do is to follow their love story in the fifth season of *Vanderpump Rules*, which premiered on Bravo TV last November 7.
