Dating Advice: 7 Warning Signs That You May Be Dating a Taken Man

By Mackenzie Scibetta

The only situation more traumatizing than discovering your man is with a secret woman, is realizing that you have unknowingly been the “secret woman” to a man and his wife or girlfriend. Devastating to a woman’s self-esteem, this type of

relationship needs to be stopped before it takes off into something more serious. The typical man who is already taken will be manipulative, uncommunicative and cautious. Watch out for those telling traits, as well as other signs that your lover may be in another commitment.

Look at Cupid's [dating advice](#) on the most revealing signs that your man is taken:

1. He's overly protective of his phone: One reason your significant other doesn't want you to touch their phone might be because there are incriminating messages, phone calls or photos on it. If he keeps his phone hidden and becomes defensive when you ask about who he's talking to, that hints he's hiding at least something, whether it is another woman or not is for you to decide.

2. He doesn't invite you to his place: This could be for the fact that he has a wife, girlfriend, or even kids at home. To keep this other life veiled from you, he will likely always suggest heading to your home instead. All and any excuse will be brought out to mislead you from the real reason you cannot visit his place.

Related Link: [10 Body Language Signs That Mean He's Into You](#)

3. He doesn't talk about his friends or family: Opening up about his friends, or even introducing you, could potentially lead to you finding out details about his other significant other. Naturally, if your man is taken then he will keep you as distanced as possible from anyone who knows that he is deceiving you.

4. He is not active on social media: This sign is significantly important, especially in our modern age where

everyone and their grandparents have at least one form of social media. This lack of an online presence suggests he does not want to be found, tracked or followed.

5. He stays quiet about past relationships: A cheating man will not share many details about his past relationship because, technically, his past relationship is also one of his current. To prevent slipping up on information or accidentally giving clues to another woman he will likely completely avoid any topic about past romances and will become agitated at the mention of it.

Related Link: [Dating Advice: 7 Things All Healthy Relationships Require](#)

6. He always calls you when he's out of the house: Whether it's from the supermarket, post office, or sidewalk he will make sure that your voice is not heard inside of his home. He uses these outside places to avoid his home life, where a girlfriend or wife awaits him.

7. He's always busy on the weekends: It's hard to sneak in time with you on the weekend when his wife/girlfriend knows he is off from work. Attached men cannot afford to be spontaneous or adventurous. They can only stick to safe zones and days when they know they will have an excuse.

According to [UsMagazine.com](#), “Josh Duggar has confessed to cheating on his wife Anna Duggar, just one day after the emails of millions of users on infidelity website Ashley Madison were exposed, including the eldest Duggar son’s information.” He has issued apologies and since then has been silent on social media.

Not all celebrity news is good.

What can you do to regain trust in relationships after someone cheats on you?

Cupid's Advice:

Scandal is swirling around Josh Duggar right now, and even when it comes to non-celebrities, rumors and scandal are never good things. Being able to regain trust in your relationship and love life after betrayal is tough, so Cupid has some love advice:

1. Open communication: If someone has cheated on you, then there was clearly a lack of honesty and communication. The best way to regain trust in your partner is by establishing an open line of communication. As long as you each know how one another is feeling, there will be no question about what the other wants. Therefore, there will be no reason for them to go out and cheat. You will both be on the same page!

2. Affirmations: Often times when people cheat, it's because they are looking for support, attention and compliments. If they aren't getting that, then they look elsewhere for it. It's like the saying goes, "You should always be like a girlfriend even when you're married, otherwise he's going to go out and get a girlfriend." Constantly remind your partner how much they mean to you, and use terms of endearment to show you care. Life is short, so let everyone know how much you love them!

3. Effort: If your partner has cheated on you, but is making

an effort, then it may be time to trust them again. If they are being genuine and it's a two way street, then that is a good sign. Both parties involved should care and be making an effort to salvage the relationship. It's time to grow from the unfortunate experience.

Dating Advice: 10 Signs of Cheating You Need To Know

By Molly Jacob

Most people have either had a partner cheat on them, cheated on someone, or knows someone who has been cheated on. While you of course hope that your partner will always be faithful, you never know when infidelity might strike your relationship and love life. If that happens, you'll want all the dating and relationship advice you can get.

Check out Cupid's 10 signs of cheating that you need to know!

1. Focus on appearance: With any long-term relationship, you start to care less and less about your appearance because you both have seen each other at your worst. But you've noticed that your partner has started caring more about their physique, and less about what you think about their looks.

This could be a sign that they're looking their best for someone else.

2. Less sexual intimacy: There are many reasons why someone could have a reduced libido, but classic relationship advice says that if your partner suddenly becomes less interested in being intimate with you, it could be because they're interested in being intimate with someone else.

Related Link: [Celebrity Couples That Have Bounced Back After Cheating](#)

3. More interest in sex: On the opposite end of this extreme, your cheating partner could suddenly have more of a sex drive. Your partner might be acting differently in bed or have a new confidence you haven't seen since you two started dating. While spicing up your sex life can be a good thing with relationships and love, sometimes it may mean something more.

4. Using technology more: Once your honey barely knew how to work his or her new iPhone. Now they have complicated pass codes on their phones and you notice mysterious apps or new email accounts. These may be a sign that your partner is hiding something from you using technology. While it may be tempting to look through their phone, some good dating advice is to make sure you talk to them about your infidelity suspicions before violating their privacy.

5. A need for privacy: Sure, alone time is important for relationships and love. But if your partner suddenly needs to take phone calls in the bathroom or goes on many errands alone, this could be another sign that he or she is seeing someone else.

Related Link: [Relationship Advice Video: How to Tell If Your Man Will Cheat](#)

6. Spends more time at work: If your significant other has become more interested in his or her work life than your

relationship, this might be a sign of infidelity. Of course, your partner could be spending more time at the office because they have a promotion coming up or a difficult project they're working on. But more "business trips" and late nights at the office could actually be a sign that they're seeing someone else, especially if they're reluctant to tell you what exactly they're doing at the office so late at night.

7. Becomes suspicious of you: If your spouse or partner is cheating on you, they might become accusatory and accuse you of being unfaithful. This could be his or her own guilt about cheating manifesting itself in anger. We often, in the area of relationships and love, project our own feelings onto others.

8. Picks fights easily: If your spouse or significant other has been getting angry with you recently and picking fights frequently, they might be causing this relationship trouble because of the guilt they feel. You should especially be suspicious if they pick fights just so they can leave the house.

Related Link: [You've Cheated, So Now What?](#)

9. Secretive with financial information: Your significant other was once open with his or her bank accounts but has recently become more private about their spending. This could be a sign that they are buying gifts for someone they are seeing on the side. Dating advice: be especially suspicious if they act strange or offended when you ask to see their credit card bills, because they could be hiding something.

10. Acting strange: When you date someone for many months or even years, you start to expect a certain behavior of someone. So when they start to stray from this, you can start to get suspicious. Relationship advice: trust in your intuition. If they start acting differently, then there might be something going on. But never jump to conclusions. If you suspect your partner might be unfaithful, make sure you talk to him or her

before becoming upset. As many signs as you find, there might be a simple explanation for your significant other's behaviors.

Scott Eastwood Says Ashton Kutcher Cheated on Former Celebrity Love Demi Moore with His Girlfriend

By [Katie Gray](#)

Oh no he didn't! On a recent episode of *Watch What Happens Live*, Scott Eastwood announced that Ashton Kutcher cheated on his former celebrity love and wife, Demi Moore. How does he know that? He says it was with his girlfriend at the time. According to [UsMagazine.com](#), "Married Kutcher rang in his sixth wedding anniversary on Sept. 24, 2011, without his wife at a raucous San Diego party at the Hard Rock Hotel which culminated in a sexual encounter with two women." Who knows what happened, but Eastwood isn't currently mad about the situation, as famous couple Ashton and Mila seem to be enjoying life together with their daughter, and Demi appears to be happy in life as well.

The drama in Ashton's former celebrity love life just intensified! What are some signs

that your partner isn't being faithful?

Cupid's Advice:

One of the worst things that can happen to you when you're in a relationship and love is if your partner isn't being faithful to you. The feelings of sadness and betrayal are hard to bare. Sometimes these situations do arise, so it's good to look for the signs. Cupid has some tips:

1. Distant: When your partner starts to grow distant, that is potential sign that he or she is growing closer to someone else. Try and spend quality time together and focus on communicating. Plan a date night! Rekindle the spark and romance in your relationship.

2. Defensive: If your partner begins to guard their cellphone and put password protection on it, then they very well may be hiding something. If they always had a passcode on their phone, then don't worry – but if they are becoming extra protective of their phone, then start being aware. If they are defensive when you ask questions, they may be lying to you. The important thing is to find out what is going on and addressing it!

3. Negative: Relationships and love go through good times and bad times. It's not always a honeymoon phase in a healthy relationship, so you can't expect your partner to be happy and positive 24/7. That being said, they should not be negative and rude to you constantly. If this is becoming a pattern and they are insulting you, something is definitely going on in

their lives and you should figure out what it is. They may just be going through some issues. Be supportive and find out what is happening!

Cupid's Advice:

Thankfully when something goes awry in our relationships and love, it isn't blasted on social media and hitting the tabloids like celebrity news. While celebrity gossip spreads quicker, there are ways that we can keep the relationship and dating gossip in our lives to a minimum:

1. Make smart choices: Unfortunately, the kind of fun you may have as a single, just isn't appropriate anymore when you're in a relationship. Make smart choices and try to avoid body shots and excessive partying without your significant other.

What are some signs that your partner is being unfaithful?

Cupid's Advice:

When it comes to infidelity there isn't always hard and fast evidence to back up the cheating. But Cupid wants you to be aware of the signs of a partner who might be looking elsewhere for love:

1. Random schedule changes: Is your partner coming home a lot later or leaving suddenly with vague explanations? This could be a sign that they are meeting someone else or up to something suspicious. Don't be afraid to have honest conversations if you are feeling confused by these changes, communication is key to trust.

2. Phone is on lock and key: Do you notice your partner being extra protective or secretive about their phone? This can be a big red flag. Affairs can be much harder to track with apps, messaging tools and numerous outlets for your partner to be in communication with someone else. Should you hack into your partner's phone...absolutely not, but be aware of any changes they make when it comes to their personal technologies.

3. Personality shift: Is your partner having intense mood swings or becoming cold and distant? Careful here, you might be looking at a cheater. Again you want to always be in direct communication with your

partner about their feelings and your relationship. If you are suspicious, call your partner out!

Cupid has some thoughts on actions and elements that might signal to a cheating spouse:

1. Changed routine: Do you notice your partner getting home at odd times compared to the past? The reasons for leaving home are irregular and sporadic? These could be indicating that your significant other is not being honest with you.

Are You Sure You Aren't the Other Woman?

By [Sarah Batcheller](#)

Many of us may have the tendency to occasionally let our trust issues get the better of us, and we begin to wonder what our significant other is up to when we're not around. It can even get as bad as suspecting them of having an affair. It is less common, though, for us to look at ourselves and wonder, "Could *I* be the woman on the side of his real relationship?" Just as there are warning signs that someone is cheating on you, there are signs that you are the one he's cheating with. No lady looking for love wants to fall under the category of the other

woman! With that thought in mind, here is Cupid's advice on how to know if you should get yourself out of your current situation before an angry girlfriend (or worse – wife!) leads a torch-bearing mob down your street:

1. He hasn't introduced you to his friends or family: Well, that's simply because no man has the audacity to admit to his closest comrades, especially his family, that he's dating two women. Not to mention, secrets aren't kept very well that way. Unfortunately for you, if he hasn't introduced you yet, it may be because you are the lesser of the two ladies. If it's been a few months and things are getting more serious, it's time to meet the important people in each other's lives. If he refuses when you bring it up, that's probably because one of those people includes a significant other.

Related Link: [Why Men Look at Other Women](#)

2. You've never been to his house: In fact, he won't even share his address with you so you can send him a sweet gift or card. This is likely due to the fact that his main girl lives with him or at the very least holds the ranking that allows her to make frequent or unannounced visits. Also, he probably doesn't want nosy neighbors acquiring any knowledge that could out him. Come on, haven't you seen *Desperate Housewives*?

3. He takes a long time to get back to you: If he takes hours or even days to simply respond to a text, voicemail, or e-mail, it may be because he's around a person (or people, like his friends and family) who he doesn't want to catch a glimpse of your message. This rude delay is due to the fact that you're on the back burner and therefore not important enough to respond to in a timely manner.

4. He doesn't take you out: He uses the excuse that he just likes to come over, cuddle, and watch a movie, but in actuality, he doesn't want to risk bumping in to anyone, like his friends, his girlfriend, or even his girlfriend's

friends. This also means you're not worth the event of getting all dressed up for a fancy date night. Plus, he doesn't want to have to spend money on someone who's less important than his significant other, who he *does* pay for.

Related Link: [6 Signs He's Lying](#)

5. You have the same hunch a girlfriend would: Just like a bonafide girlfriend may suspect cheating, you suspect the same, except your suspicion comes along with a combination of one or more of the aforementioned signs. In addition to these signs, you might notice that another girl tags him in pictures on Facebook, he's always on his phone, or he seems distracted. Basically, you suspect he's cheating, but due to the other red flags, you realize he's not cheating *on* you; he's cheating *with* you.

Celebrity Couples That Have Bounced Back After Cheating

By Jennifer Harrington and Laura Seaman

For those who follow celebrity news, cheating in Hollywood is hardly a surprise. What is often more interesting are the couples that, despite the spotlight and scrutiny, manage to stick together through a cheating scandal. So Cupid took a look at a few high-profile lovebirds who have weathered the storm of infidelity to see what lessons about moving on can be learned from the A-listers.

1. Josh Duhamel and Fergie: This couple met back in 2004, became engaged in 2007, and were married in 2009. Soon after they became man and wife, though, a stripper accused the actor of cheating. This didn't seem to upset the Black Eyed Peas singer, as she stayed with him through it all. In 2012, Duhamel addressed the rumors and said, "When you go through difficult times, it really makes you stronger as a unit, as a partnership. It does for us, anyways. Our love today is a deeper love, definitely." In 2013, they welcomed their baby boy Axl Jack Duhamel. What didn't kill this relationship made it stronger, and these two are as happy as ever.

Related Link: [You Cheated, So Now What?](#)

2. Kobe and Vanessa Bryant: Hotel worker Katelyn Faber accused the basketball star of sexual assault back in 2003. While Bryant did admit that he slept with the Faber and cheated on his wife, he denied that it was assault. Through the trial and all of the press, Bryant's wife stayed by his side. The two are still together and are now raising their two daughters, Natalia and Gianna. In fact, they were recently spotted on a family vacation in Greece.

3. David Borneaz and Jaime Bergman: The *Bones* actor and his former Playboy Playmate wife have been married since 2001, but in 2010, he admitted to the public that he cheated on a then-pregnant Bergman. The other woman in the picture is no stranger to scandal: Rachel Uchitel was also a mistress of Tiger Woods. Later, to make matters worse, explicit texts between the two were leaked to the media. Soon after, the actor commented, saying of him and his wife: "We're working on repairing what has been damaged so badly." He now says that the entire affair was a type of bonding experience for the couple and that they are closer because of it.

4. David and Victoria Beckham: The soccer star was hit with a cheating accusation back in 2010 by *In Touch Weekly*, who published a piece stating that he had cheated on his wife with a call girl named Irma Nici. Beckham sued the magazine, and the suit was dropped. Beckham's rep released a statement saying the allegations were "completely untrue and totally ridiculous, as the magazine was told before publication." This past July, the couple, who has four children, celebrated 15 years of marriage.

Related Link: [Why Kourtney Kardashian and Scott Disick Don't Need to Get Married](#)

5. Scott Disick and Kourtney Kardashian: This reality couple has faced allegations of unfaithfulness throughout the course

of their seven-year relationship. In 2011, rumors swirled that Disick and fellow reality star Kristin Cavallari were having an affair. Cavallari denied the rumors and speculated that they were initiated to spark interest before the premiere of a new season of *Keeping Up With the Kardashians*. With Kardashian pregnant with their third child, it sounds like all has been forgiven!

Ultimately, cheating should be avoided, and it's never a desired ingredient in any romance. But, unfortunately, it does happen. The examples from these high-profile couples proved that with time, forgiveness, and family support, it's sometimes possible to mend a relationship broken by unfaithfulness.

Ciara and Future have split up only three months after their baby, Future Zahir Willburn, was born. Ciara called off the engagement because, as a source told UsMagazine.com, “He cheated on her. Game over.” The two were dating for over a year when Future popped the question on Ciara’s birthday in October, 2013. Their baby was born months later in May. “She’s devastated,” a source says, “Ciara’s focus now is the baby.”

What do you do if you discover your partner is cheating?

Cupid’s Advice:

Cheating is probably one of the worst things that can happen in a relationship. It’s hurtful and disrespectful, leaving one partner to feel blindsided and unwanted. The easiest and usually the smartest way to go about the situation is to end the relationship immediately. After all, if you can’t trust your partner to be faithful, you’re just setting yourself up for a lot of stress and possibly future heartbreak. But before you do that, here are some steps to consider:

1. Talk to your partner about it. Find out the circumstances, how many times it has happened, and why they cheated in the first place. It's never okay to cheat, but there is a big difference between a partner who drunkenly hooks up with someone one and a partner who has cheated with the same person multiple times behind your back. Knowing all the facts will better prepare you for the next step.

2. Consider your options. The obvious choice is to end the relationship then and there. However, if ending the relationship would cause you more pain than it's worth, maybe you should talk about other possibilities. Maybe you should go to counseling, or spend more time with each other to fix your issues. Choose your actions carefully, because a problem this complicated needs a solution that's been thought through.

3. Take action. If cheating is an unacceptable, no-exception action for you that leads straight to a break up, do it quickly and don't draw out the pain. Tell them "it's over" and explain why. However, if you're not breaking up with your partner, you still need to make it clear that things need to change and you need to talk about it ASAP. Don't let this get pushed to the side, because cheating is a big deal and you need to treat it as such.

Rob Pattinson Comments on Ex Kristen Stewart's Cheating

By Sanetra Richards

Leaving the past in the past. That is exactly what Rob Pattinson tends to do. According to UsMagazine.com, the *Twilight* alum spoke out about the public affair that ultimately ended his relationship with ex-girlfriend Kristen Stewart. From the looks of it, the actor has moved on and even joked about the cheating scandal in the September issue of *Esquire UK*. "S— happens, you know?" said the 28-year-old actor. "It's just young people... it's normal! And honestly, who gives a s—?" News broke back in July of 2012 when photos were released of Stewart cheating with married *Snow White and the Huntsman* director Rupert Sanders. "The hardest part was

talking about it afterwards,” Pattinson went on to say about the fling. “Because when you talk about other people, it affects them in ways you can’t predict.” After the affair went public, Stewart released an apology to Pattinson, stating: “This momentary indiscretion has jeopardized the most important thing in my life, the person I love and respect the most, Rob. I love him, I love him, I’m so sorry.” The former couple attempted to repair the relationship, but ended up going their separate ways. “It’s like that scene in Doubt [2008, in which Philip Seymour Hoffman plays a priest suspected of inappropriate behavior], where he’s talking about how to take back gossip?” Pattinson teased the allegations resulting from his relationship. “They throw all those feathers from a pillow into the sky and you’ve got to go and collect all the feathers.”

What are some ways to get over a cheating ex?

Cupid’s Advice:

Your worst fear came to light: You discovered your partner tainted the relationship by cheating. A number of emotions are piled up and you do not know where to go from here. Being cheated on can leave both good and bad effects on a person. You are probably thinking you will never get over this heartbreak. Can you? Sure, you can. Cupid is here to tell you a few steps to get there:

1. Good support system: In any situation, it is always best to have a few people to count on during times needed. If you are a person who tends to build a wall and does not communicate very well, this will become evident after a breakup. Avoid pushing those closest to you away just because of one person – do not let the cheating ex ruin it for all. Your family and friends are there to listen when needed.

Celebrity Interview: **'Cheaters' Detective Daniel**

Gomez Says, “Cheating Doesn’t Discriminate Against Anyone”

By Brittany Stubbs

Although infidelity is no longer classified as a criminal act, the consequences of cheating can ruin marriages, families, and lives. For 14 seasons, the reality TV show *Cheaters* has invited viewers to watch real relationships and love unravel as private investigators are hired to help spouses catch their partners cheating. Having served 16 years as the Chief Detective on the show, Daniel Gomez has a lot of knowledge when it comes to infidelity.

Celebrity Interview with Reality TV Star Daniel Gomez

Not all of Gomez's wisdom comes from his experience in the field though. The tough detective from Texas began our celebrity interview by sharing how infidelity has influenced his personal life: "I've been a victim of cheating. It's more common than you think, and you can't always judge a book by its cover. So after going through it myself, I realized there was something I could do to help others who may be experiencing a similar pain."

Related Link: [Jason Aldean is Dating Mistress Brittany Kerr Post-Divorce](#)

While hiring a private detective is helpful in determining if your partner is cheating, it doesn't always take a professional to notice some of the clues of infidelity. There are many signs that Gomez encourages victims to look out for in his book *Play to Win*, but here are the five main ones.

- You have difficulty reaching your partner.
- Your partner is paying more attention to his or her appearance.
- Your significant other is preoccupied and less attentive.
- They're working overtimes or out of town on business trips.
- You experience decreased sexual activity, intimacy, and affection from your partner.

After noticing one or more of these signs, many people make the mistake of immediately confronting their partner of their suspicions. While this approach may seem tempting, the detective believes there are a few questions you must ask yourself. First, you must determine how you define cheating. "Definitions of cheating vary," he explains. "I'll have one

client tell me that, unless they're caught having sex with someone else, it's not cheating. And then I'll have another client decide that if they're sending or receiving consistent messages from the opposite sex, they consider that cheating."

Related Link: [Dean McDermott Is Accused of Cheating on Tori Spelling](#)

After figuring out what behaviors are considered unfaithful, you must decide how much evidence of your partner cheating that it'll take to satisfy you. "I always ask my clients how much they want to know." While some victims are only seeking one action to determine they've been betrayed, others aren't satisfied until they've obtained every last detail.

Once you have gathered everything you need to build your case, it's time to make the decision: Will you stay, or will you go? "The question is simple; it's the answer that becomes challenging," Gomez says in our celebrity interview. No matter how many apologies and excuses your partner makes, only you can choose what's best for you.

Cheaters Detective Talks Celebrity Infidelity and Scandals

The author believes it's important for everyone to remember that "cheating doesn't discriminate against anyone." No matter who you are, how much money you make, or what you look like, you can be affected by this vicious game, so don't be naive. We're reminded of this truth every time the media alerts us of another celebrity couple's relationship that has been rocked by infidelity. Although it seems surprising that such high-profile people still risk everything by cheating, Gomez reminds us, "Celebrities are human beings just like everyone else."

He says that Arnold Schwarzenegger first comes to mind when asked what celebrity infidelity society can learn from. "He cheated and had a child with his nanny, which shows that it doesn't always take someone necessarily attractive to make a person cheat on their spouse." The Tiger Woods case – one of the biggest celebrity scandals in the world of professional sports – is another classic case because it was all confirmed by his wife simply doing some digging on his cell phone.

In the end, while every relationship and love is different, you must remember to always stay in control and protect yourself when dealing with a cheating partner.

Celebrities Who Have Gotten Back Together After a Cheating Scandal

By April Littleton

Celebrities are known for being in the spotlight – especially if they are involved in a relationship with someone. Sometimes, this can get them into a bit of trouble if they aren't being true to the one they love. Whether the rumors are true or not, many celebrity couples have had their fair share of cheating scandals:

1. Kristen Stewart and Robert Pattinson: In July 2012, *Us Weekly* published pictures of Stewart having an affair with “Snow White and the Huntsman” director Rupert Sanders. The day after the scandal went public, the “Breaking Dawn” co-star issued out a public apology to Pattinson through *People*. “I’m deeply sorry for the hurt and embarrassment. I’ve caused to those close to me and everyone this has affected. This momentary indiscretion has jeopardized the most important thing in my life, the person I love and respect the most, Rob. I love him, I love him, I’m so sorry,” she said. After a brief breakup, the two ended up back together. However, the reconciliation didn’t last. The couple broke up for the final time sometime last year.

2. Fergie and Josh Duhamel: In 2009, an exotic dancer named Nicole Forrester claimed she had an affair with then 39-year-old Josh Duhamel. In an interview with Oprah, Fergie addressed the claims. "It was difficult. When you go through difficult times it really makes you stronger as a unit. As a partnership. It does for us anyways. Our love is a deeper love now," she said. The couple went on to renew their wedding vows shortly after the allegations. The duo are also parents to son, Axl Jack Duhamel, born Aug. 29, 2013.

They have a son, Julian Fuego Thicke.

4. Keith Urban and Nicole Kidman: Part-time model, Amanda Wyatt revealed to *Daily Mail* that Urban cheated on Kidman throughout their relationship. "I feel sorry for Nicole. Keith cheated on her repeatedly with me, right up to just before they got married," she said. However, the accusations didn't seem to tear the couple's marriage apart. Urban and Kidman had their first child together in 2008, and had a second daughter in 2010.

What are some signs that your partner is cheating?

Cupid's Advice:

Being cheated on by someone you love is extremely hurtful. While you want to trust your spouse, if you're wondering if they might be cheating, look out for these signs:

1. Credit card activity: If you have access to your partner's bank account and notice there's a number of charges that don't make sense, this might be a red light. For example, dinners at nice restaurants, hotel reservations, etc. Are your partner's credit card bills no longer sent to your house or visible to you? This might be another sign to question.

2. Sketchy phone behavior: Do they have a passcode you don't know? Do they step out to take calls, text under the table, or take their phone with them to the bathroom? These might be signs that they're hiding something.

3. Their appearance has changed: According to the *Huffington Post* article "Cheating Signs: 10 Classic Signs Your Spouse May Be Cheating," one of the first signs that should make you suspicious your partner might be cheating is if he or she is

suddenly dressing much better out of the blue. If your partner is notorious for running around town in sweats and is all of a sudden putting more effort into dressing up and getting ready, it could be a sign there might be someone new they're trying to impress.

Simon Cowell's Girlfriend Lauren Silverman Is Officially Divorced

By Brittany Stubbs

Simon Cowell's girlfriend and the mother-to-be of his child, Lauren Silverman, finalized her divorce from ex-husband Andrew Silverman in New York Civil Court this Wednesday, PEOPLE confirms. The couple reached an amicable divorce settlement this past August, just one month after the announcement that Silverman was pregnant with Cowell's child. Cowell has purchased an engagement ring, a source told [People](#) in November, and may pop the question over the upcoming holidays.

What do you do if you're suspicious that your partner is cheating?

Cupid's Advice:

Nothing can be more difficult in a relationship than the feeling that your partner is being unfaithful. But before you start snooping through their emails or looking at phone records, take one of these approaches:

1. Get an outsider's opinion: When you're doubting your partner's faithfulness, everything can be seen as confirming

your suspicions: they have to work late or they cancelled plans last minute...is this just in your head? Sharing your situation and reasons of doubt with a close friend or family member can often give you assurance if your suspicions are justified, or you're just being paranoid.

2. Pay attention to their phone: Do they have a passcode? Do they step out to take calls, text under the table, or take their phone with them to the bathroom? These might be signs that they're hiding something. Next time you notice your partner's sketchy phone behavior, ask to see who they're talking to. Their reaction alone might clue you in.

3. Surprise them: Catching them off guard is an easy way to catch them in a lie. Maybe this means coming back in town a day earlier than your partner is expecting. Or finding an excuse to stop by their house unexpectedly. Did they say they were grabbing drinks with friends? Maybe you need to make a surprise appearance.

Michael Morris Steps Out with Wife Post-Katharine McPhee

Scandal

By [Whitney Johnson](#)

It looks like yet another cheating scandal has rocked Hollywood. Last week, married actress Katharine McPhee was spotted kissing her *Smash* director Michael Morris, also hitched. This past weekend, [Us Weekly](#) revealed that Morris was spotted with his wife, *In Plain Sight* actress Mary McCormack, who allegedly kicked him out of the house they share with their three children. Sources say that the *American Idol* runner-up has been separated from her husband, Nick Cokas, for several months, but she's still incredibly embarrassed by the situation.

What do you do if you find out your partner has been cheating?

Cupid's Advice:

It's easy to say what you would do *if* your partner ever cheated, but the reality of the situation is completely different than that "what if" scenario. Before you make any rash decisions or say and do something you may later regret, consider the tips below:

1. Take a breather: It's natural to need a bit of space after finding out such life-altering news. Step back from your relationship and use this alone time to think about how you feel about your relationship, your partner, and, most importantly, your future.

2. Seek outside help: Whether it's a close friend or a therapist, talking to an outsider about your partner's cheating will help you gain some much-needed perspective. It'll allow you to look at the big picture and really consider the questions needed to determine if you want to work through this rough patch with your significant other or if you're ready to call it quits.

3. Follow your heart: Finally, no matter what anyone says, listen to yourself. Deep down, you know whether or not you can truly forgive your beau and move forward in spite of the transgression. Just remember that if you can't see past this mistake, you'll never be happy together.

Relationship Advice: Your Partner Has Cheated. Should You Reconcile?

By Samantha Menjor

You notice that your partner has been acting differently lately. The occasional late night work meeting now falls on every day of the week. He or she has been constantly texting and having secret telephone conversations in the bathroom. The scent of a different perfume or cologne lingers on their clothing. There's an emotional distance in your relationship that ceased to exist before. You have a gut feeling of what is really going on, but you don't want to believe it. Plus, there is no proof ... until you get a call from a friend letting you know they have spotted your other half in a compromising

position with another person at a local restaurant. You rush over to find your beau holding hands, kissing and gazing lovingly into the eyes of someone else. All you see is red through the blurred vision of your tears.

Fast forward to a few weeks later. You're feeling hurt, pain, betrayal, confusion and anger. Your partner has admitted their wrongdoing and has apologized countless times. Friends and family are all trying to give you their best advice, but you're hearing conflicting resolutions of what you should do.

If you've never been in this situation, you most likely know someone who has. It may not have happened exactly like the given scenario, but we've all had a friend come to us for advice on infidelity in their relationship. So what do you tell them? What would you do if you were in a similar situation? Here are some questions you need to ask yourself and your partner when deciding between reconciliation and a breakup:

Related: [When Can You Trust Him?](#)

1. Was the affair short-term or long-term?

Some affairs last months, even years and others are just a night of poor judgment. While you may not want to know the details of your partner's infidelity, it's important to know how much time was spent cheating. This allows you to better understand whether there was an emotional investment, whether it was strictly physical or both. Either situation would be difficult to rectify, but it helps in getting to the root of the issue.

2. Why did this happen?

There had to be something your unfaithful partner felt was lacking in the relationship for an affair to happen. Did they feel you were working too much and not showing them enough

attention? Did having children cause you to lose your spark as a couple? A decision to reconcile is often dependent upon what caused the infidelity. Is it something that the two of you can fix through compromise, communication and counseling? If not, then the chances of reconciliation are slim.

3. Do you still love each other?

How did your spouse react to being caught? Did they express remorse and shame, or were they trying to justify their actions by putting the blame on you? A partner who shows regret for their actions is a better candidate for reconciliation than the latter. While their profession of love for you and endless apologies could be just words, it shows they are willing to try and do whatever it takes to get you back. It's imperative for you to consider your partners past behaviors in your relationship as well. Have they always shown their love for you or have there been signs of cheating before? More importantly do you love your partner enough to try and work it out? The answer to these questions will help you figure out whether you choose the path of reconciliation or separation.

4. Will you be able to forgive and move on?

For many people cheating is a deal breaker. No amount of love, good behavior or money will allow them to get past the fact that they were betrayed. Many couples try to stay together and work through their problems only to find out that trust was never regained and forgiveness was never given. Before you consider reconciling, sit and think about whether you can get past the infidelity. If not, it may be time to part ways.

Related: [Can Love Conquer All?](#)

Countless other questions should be considered when deciding upon reconciliation. Each relationship has different factors to reflect upon after dealing with infidelity. Forgiveness and resolution take a lot of effort, time and healing for both

parties involved. While many couples have split due to cheating, many have resolved their issues forming an unbreakable bond.

Dating Advice: When Can You Trust Him?

By Jane Greer, Ph.D. for GalTime.com

Sports celebrity couple Tiger Woods and Lindsey Vonn announced

recently that they are officially an item after much speculation. Adding to the intrigue, of course, is Tiger's history, which speaks for itself. It makes one wonder, how do you know if you can trust your new partner?

Take a typical dating scenario any single person might find themselves in: everything seemed great at first, then he canceled one date, and then another. The first time he said he had a cold, the second an old friend was in town. Last night he couldn't make dinner because he said he had to work late unexpectedly. The thing is, you really like him and he keeps making future plans. But with his recent track record, can you trust that he's going to come through on Thursday as promised? And what can you do so you're not just stuck in a holiday pattern?

The first step to take is to have a back-up option – something scheduled in case he once again cancels the next date. That way if you're already halfway through getting ready you will still have someplace to go. Most important, you won't be alone and stranded with nothing to do. Next, if you do see each other again, check out his M.O. with a causal question, "Do you often change plans at the last minute?" If he says yes he does, then let him know you would rather leave things more open and flexible. Instead of making a date to go out on Friday night, ask him to call you at whatever point he knows he is going to be free. If you are still available, you'll go out, and if not, you'll try for another time. This will eliminate your waiting and wondering all week if he's going to come through.

The bottom line is, if you're not feeling that your time is being considered and that you're important to this person, you especially want to make sure you look out for and take care of yourself. While it's possible that three things came up in a row that he couldn't help, and it has nothing to do with his feelings for you, you want to make sure you don't feel like a

puppet on a string. Avoid waiting around in limbo and stay active and involved in your own life. When you think about yourself and have something else to do just in case, you won't get derailed by his thoughtless behavior.

Jealousy causes arguments in so many relationships. How can you avoid becoming victim to jealousy issues? Cupid is here to help you:
