How do you keep rumors from negatively affecting your relationship?

Cupid's Advice:

You and your partner should watch carefully out for rumors. For which, they can thoroughly affect your relationship, and not in a positive manner. Although rumors can negatively affect your relationship, there are ways to distance them from you and your mate. Cupid has some more advice on this:

1. Communication: You and your beau need to communicate with one another if rumors are present in your relationship. Make sure you both know the rumors floating around, and the physical truth. Talk to each other of how you can abolish them, and what you can do as a couple to strengthen your relationship. Rumors can negatively affect your relationship, but if you talk to your mate, rumors are not a factor.

2. Ignore them: As with communication, the first step with rumors is to talk to your partner about them. However, you have to leave them aside. Do not let them get under you or your mate's skin. If you let the people spreading lies about your relationship get to you, your relationship will suffer. After you discussed the rumors with your beau, don't think about it again. Let them go.

3. Don't dwell: Dwelling on situations or rumors will negatively affect you and your partner's relationship. Hence why you should not dwell on the rumors going around. Although it may be challenging to not think about the rumors and why someone started them, it is possible. And as soon as you make it possible, your relationship will not suffer negatively whatsoever.
