

Relationship Advice: Can You Handle Sex Without Love?

By Dr. Jane Greer

As women strive for equality, they are exercising their freedom of sexual expression more and more, which for many might mean a choice to have casual sex. However, with that freedom and choice comes great responsibility, and the important task of taking care of your emotional self and well-being. That is possible only once you know what you want and can tolerate, and, when it comes right down to it, if you can handle sex without love. Diane Von Furstenberg spoke about her fling with Richard Gere, saying it was just a “f**k,” which is how she wanted it to be. While it is more common for men to have sex and keep it just about the physical connection, with few or no feelings of intimacy involved, women regularly

struggle with separating the two. Often emotions come into play despite their best intentions, since so often women feel most vulnerable when they are in intimate situations and often literally are and symbolically feel naked. So how can you know if you can handle a fling with no strings attached?

With this relationship advice, learn if you can handle a fling without love.

By challenging the stereotypes that have confined and limited women for so long, you can consider your sexual identity and what it means to you in terms of your happiness and your sexual esteem, and what might give you the most pleasure and fulfillment. Sometimes that might mean indulging in a purely physical romp with someone. That can happen if, for example, you want to sleep with someone you just met, because you are on vacation and want a brief romantic escapade, or you are at a wedding and want a one night stand. Furthermore, you may have just gotten out of a long relationship and aren't ready to jump back in to a serious commitment, so casual sex might seem appealing. If you find yourself facing any of these scenarios, ask yourself if you will be okay if you never hear from this person again. Or if you begin to feel connected but they aren't interested in anything more than the sex, will you be able to disengage without experiencing a great loss? The most important thing to consider is how you will feel when it's over. The key is to be able to enjoy the experience, and have it enhance your self-esteem.

Sometimes the only way to know if it is going to work for you is to take a chance, jump in and see where you land. You know

best what your Achilles' heel might be, and if there is a chance you could come out of it with a big emotional ouch because you may find it hard to let go, this might not be the right move for you. With that in mind, if you are in the driver's seat you can give yourself the permission to say yes to your desires and feel empowered by them when it comes to your sex life decisions. The essential thing to be aware of is that whatever your action may be you are doing it by choice, one that you are making for yourself with full awareness of the consequences, and thereby can feel confident about. In this way, you will be a woman who takes charge, is in control, knows what you want as well as what you don't want, and will be better able to build your inner security which will reflect in your general wellbeing.

For Diane, it was simply about getting physical. It requires clarity, like she had, to know from the start that you'll be fine if nothing more develops from your sexual encounter. If you are able to take an inventory and determine where your tender spots are, thereby avoiding heartbreak, hopefully you will be able to keep it light and fun. In the end, knowing what you can handle is the best indication of whether or not a sexual rendezvous without a commitment will be a positive or negative in your life. If you tend to get attached quickly and are very sensitive to rejection, just sex might not be for you. You want to be your best protector. When it comes to casually getting between the sheets and thinking about how you'll feel after, trust your gut.

Richard Gere and Carey Lowell Call It Quits

By Gabriela Robles

Richard Gere and Carey Lowell have called it quits after 11 years of marriage. According to [People](#), the two have been living separately lately, with Gere living in Bedford, N.Y., and Lowell in North Haven, N.Y. They were last seen in public together at a fundraiser in New York City in June.

What are some ways to tell it's time to go your separate ways?

Cupid's Advice:

You haven't felt the same lately. You want to spend more time alone than together. You're unsure about your relationship and now you don't know what to do. Is it time to end things? Cupid can help you through this decision:

1. Reflect on what your daily plan is: Do you guys have some couple-time, or are you always alone? Do you prefer spending time alone or with friends than with your partner? If so, you might be ready to end the relationship. It's possible that you're just in a rut, but if it's been going on for more than

a few months, then it's likely that you're both feeling the same thing.

2. Think about how you feel: Ask yourself, are you still having fun? Is he still the love of your life? Do you still enjoy being around him? No matter how long you've been together, you want to always enjoy each other – even when you're in an argument. If that feeling's gone, then there might not be anything there anymore.

3. Talk about it: Ask him how he feels. Does he think it's something you guys can work out? If you both believe you can work on it, don't leave. But if not, then it's probably time to make an exit. You always have to be on the same page and have to figure out what you both want. If it doesn't match up, then it might not be the right relationship.

Celebrity News: Cindy Crawford Blames Her Divorce From Richard Gere On 17-Year Age Gap

By Meghan Fitzgerald

UsMagazine.com reported that although Cindy Crawford and Richard Gere's relationship didn't last, Crawford learned a lot of lessons from the four-year marriage. On March 11th, Crawford was on *Oprah's Master Class*, discussing how their 17-year gap was the largest problem in their relationship. The [New York Post](http://NewYorkPost.com) reports Crawford's appearance on *Oprah*, "I think a lot of what happened with Richard and I was, I was still 22 and at 22 – as a young woman – I was kind of still figuring out who I was and what I wanted to be and he was already 37." The two are now happy, with children.

How do you know if an age gap in your relationship will affect it in the long-term?

Cupid's Advice:

Age gaps in relationships can cause a myriad of problems, especially in the long term. It can also be a fresh thing between you and your mate. Depending on your personalities, the age gap, how comfortably you are with each other and what

not, the relationship can last. Cupid has some advice on how this gap will affect the long term:

1. Emotional maturity: Emotional maturity is an aspect you want in a relationship if a age gap is present. You do not want twelve years between one another and the younger person acting immature and their own age. If you are going to be with this person for the rest of your life, they have to be able to keep up with you emotionally. If this is not a possibility in the beginning, it may challenging to make it for the long haul.

2. Similarities: Similarities are usually what brings a couple together in the first place. They should still be present throughout the relationship if there is an age gap present. You and your mate will not make it if you have absolutely nothing in common because of your age. If your music, humor, morals, or anything important are vastly different; consider getting yourself out of the relationship and move on.

3. In sickness and in health: If the age gap is not a problem until after the wedding, well ladies and gents, just remember 'in sickness and in health.' Although divorce is common amongst many couples these days, you should resort back to the vows you took as a couple. If you have already reached the marriage stage, technically you've reached the long term, and simply are just going to have to deal with it day by day.
