

Ideal Engagement-Moon Destinations in North America

Everyone already knows about a honeymoon, but did you already know about an engagement-moon?

Indeed, while everyone will generally be able to look forward to going on their honeymoon once they tie the knot and get married, there will be some couples that might look to go on an engagement-moon instead. This is essentially [the same as a honeymoon](#), but just simply after committing themselves to being with their other half for the rest of their lives.

Of course, there are a number of decisions that need to be made and taken into account when going on an engagement-moon, with the destination being one of the most important of them all as this can be what makes the holiday either a positive one or one that would rather be forgotten about!

Here are just some of the best destinations that are available in North America:

Las Vegas

Las Vegas has to be considered as one of the number one destinations for anyone considering to go on an engagement-moon, even if they have been to the bright lights that the city has to offer before.

Indeed, the city of Las Vegas offers so much to everyone that visits, it could be argued it would be incredibly difficult for anyone to be able to achieve and experience everything the city has to offer them in an individual's lifetime.

The Nevada state has a number of [real money casinos](#) available for those that wish to go on an engagement-moon that enjoy the

gambling side of life, as they may have taken a huge gamble getting hitched! The city has some of the world's biggest and most famous casino resorts available, which make great locations. Honolulu might be the most popular destination of the state, however there are numerous different cities and neighborhoods that can be visited and enjoyed.

Those who do go to Honolulu should look to check out Waikiki Beach, as this is arguably one of the best beaches that the island has to offer, whilst those who wish to do a bit of snorkeling could look to go to Hanauma Bay and enjoy the crystal blue water and tropic fish that can be found here.

Nashville

Nashville in Tennessee is known around the world as Music City, thus making it a highly appealing destination in North America for those who are looking to go on [an engagement](#)-moon holiday.

Of course, music lovers will love what Nashville has to offer, whilst it can also be considered the perfect destination for those who need to brush up on their dance moves before taking their first dance at their wedding.

There is plenty to do in the state of Tennessee and Nashville in particular, although a trip to Memphis and Graceland could also be visited as it is a short drive west of the city.

Indeed, Memphis could appeal to those who loved Elvis Presley.

New York

Although a rather expensive option, New York could be the perfect engagement-moon getaway for newly-engaged couples as the city provides them with the opportunity to go shopping and spend big as a 'new couple'.

It is not just the range of shops that New York City can boast, though, as there are a number of landmarks and attractions that can be visited, including Times Square and the World Trade Center memorial, whilst there are also opportunities to enjoy some of the finer things in life such as eating at top restaurants and enjoying some of the most relaxing experiences possible via the use of the luxury spa resorts that can be found in the Big Apple.

Florida

The state of Florida could be a perfect destination for an engagement-moon as the state provides plenty of sunshine in the warmer months, thus allowing visitors to be able to visit some of the world's best beaches, including Clearwater Beach in Clearwater, or allow them to head to some of the biggest theme and amusement parks that the world has to offer.

Travel Tips: How to Plan for a 2021 Vacation in the Midst of COVID-19

 By Nicole Maher

Nearly everyone who had a vacation planned for the year of 2020 needed to cancel due to the rise of COVID-10 cases across the world. However as 2021 approaches, with established health guidelines and the hope of vaccines, you may be wondering if the new year will allow you to travel again. While the state of the world is changing constantly, travel experts have revealed some [travel tips](#) for planning a vacation in the upcoming year.

Use these travel tips for planning a safe and enjoyable vacation for 2021 in the midst of COVID-19.

1. Plan in advance: It is important to plan a vacation in advance under normal circumstances, but planning one during a pandemic makes this step even more necessary. Travel agents recommend that you should book your tickets six to nine months in advance if you are looking to travel during 2021. This will allow you to get the best price on plane tickets, which will likely be limited, and likely allow for some time to cancel the trip if necessary.

2. Research airlines: Airlines were one of the industries that needed to make the most changes following the spread of COVID-19. While your main priority in the past may have been taking the airline with the best deal, it is now more important to pick the airline that is the safest for your health. Use this travel tip to look at which airlines have maintained their new protocol the best and have been linked to the fewest possible cases of the virus. It is also important to look at the capacity of the planes and determine if you feel safe traveling with that number of passengers.

3. Anticipate changes: One thing we've all learned throughout the course of this pandemic is that things change quickly. Even though it is important to plan your vacation well in advance, it is also essential to understand you may not know if the trip is confirmed until weeks before. This is especially important when traveling internationally, as many countries are changing their travel restrictions every few

weeks. Having a smaller backup plan in case your trip gets delayed is a good way of accommodating any possible changes.

4. Support affected destinations: The pandemic has hit everyone hard over the past year, but there are some areas that have struggled more than others. When planning your trip for 2021, it could be beneficial to look into what travel destinations have experienced the largest financial hit since the beginning of the virus. Many of these travel destinations are smaller islands that make most of their revenue off of tourists. Make the most of your next vacation by escaping somewhere nice and helping out the local community while you are there!

5. Consider your health and safety: At the end of the day, there is nothing more important than your health and safety when traveling this upcoming year. Look into destinations that prioritize social distancing guidelines and have throughout cleaning plans. If possible, try to book a living space that does not share any common areas with other guests, such as a private house and separate villa at a resort. If your destination experiences a spike in virus cases prior to your visit, consider the option of rescheduling your vacation until it is safer.

6 Travel Tips for Visiting Disney World

 By Nicole Maher

Whether you are going for the first time as a child, or returning later to enjoy the park as an adult, a trip to Disney World is always a great idea for a vacation. But, with the growing number of theme parks on-site and typically long lines, it can be hard to plan the perfect trip. By implementing some of the following [travel tips](#) and tricks, you will be able to make the most of your Disney trip and find yourself wanting to come back again.

Check out these six travel tips for planning your perfect trip to Disney World.

1. Decide what time of the year: The first step in planning your Disney World vacation is to decide what time of year you want to go. While summer is often the most popular time because of the weather, it is also the busiest. The holiday season is also a popular option because of the different events Disney holds at this time, but can also be crowded.

Fall and spring may offer smaller crowds, but there may be less extra events to partake in.

Related Link: [Travel Advice: The Best Games to Play on Road Trips](#)

2. Pack for all kinds of weather: Even though Disney World is located in the warm state of Florida, it is important to pack for all kinds of weather conditions. It is likely that it will rain at least one day of the trip, so having compact, throw-away rain ponchos is a must. If you are traveling between the months of November and February, the weather is known to fluctuate a lot, so grabbing a sweatshirt and pair of long pants is a great travel tip to keep yourself prepared!

Related Link: [Travel Tips: Flying with Pets](#)

3. Pick parks that fit your group: Different sections of the theme park offer different experiences, so it is important to visit areas that suit the age range of your group. Magic Kingdom is a great option for younger children as there are less rides that have a height requirement, and many of the popular Disney characters can be found there. Epcot is better for older crowds because there is a larger focus on restaurants and bars than on rollercoasters and characters. If your group is a mix of different ages, try exploring a different park each day to satisfy everyone.

4. Use the hotel services to the fullest: The hotels located on the Disney World grounds offer many services, including wake-up calls from different Disney characters at the start of each day. The Bell Services at Disney hotels will hold your luggage if you need to check-in early or if you are leaving later in the day. Packages can be mailed to the hotels and held until you arrive, which can be a great way of avoiding bag check fees. The hotels also offer to pick up merchandise you purchased in the parks and bring it back to your room so you don't have to carry it all day.

5. Research restaurant options: If you're visiting Disney World with someone who has diet restrictions or is simply a picky eater, it is a good idea to research different on-site restaurants before arriving. Certain restaurants at the park offer gluten-free or dairy-free options to accommodate those with dietary restrictions. There are different eating areas throughout the parks that offer free drink refills as well, and are the perfect places to stop and grab some water.

6. Plan, but don't over plan: While it is important to prepare for your trip Disney World to make the most of your visit, there is no need to over plan. Theme parks can be unpredictable, and even after implementing the best travel advice and tips, there will likely be aspects of your trip that fall off the schedule. Be willing to allow for some flexibility on each day. If you miss out on an event because of a long line or bad weather, don't worry about it. After all, it is just an excuse to come back again!

upcoming holiday season, try adding some of these [travel tips](#) to your normal routine to help relieve some of the stress surrounding your travel plans.

Check out these five travel tips of what to pack in your carry-on while traveling during a pandemic.

1. An extra mask: It's practically part of our daily routines at this point, right? Keys, wallet, phone, mask. With people coming and going from different locations, the airport is one of the most important public places to be wearing a mask. While you will already have one around your face, it is also wise to place a spare in your carry-on. This travel tip will help keep you safe in the event something happens to the mask you are wearing.

2. Gloves: Whether it is railings, door handles, or storage bins, you will inevitably need to touch different objects as you navigate your way through an airport. A great way to protect yourself from the germs on these objects, and spare yourself from continuously washing your hands, is to wear a pair of gloves. Stuff a few pairs of throw-away surgical gloves into your carry-on so that you can change them as needed, and reveal some of the stress of feeling like you need to constantly clean your hands.

3. Hand sanitizer: Even if you opt to wear gloves as you travel, carrying hand sanitizer is equally as important. Clip a travel-sized hand sanitizer onto the handle of your suitcase

or backpack to ensure that it is easy to reach throughout your trip. Many airlines have restrictions of the volume of liquids allowed in a carry-on, so be sure to check the policy so that your sanitizer will make it through security!

4. Electronic-safe wipes: From a phone to a laptop, you will likely be using at least one electronic device while you are traveling. It is just as important to keep these devices clean and safe as it is to protect your own hands. Packing a few electronic-safe disinfectant wipes into your carry-on will allow you to keep your belongings clean throughout the trip and once you reach your destination. Be sure to read the cleaning instructions on both your electronics and the wipes to ensure they are safe to use on everything. Along with hand sanitizers, airlines may also have rules on these types of cleaners, so be sure to check their rules when you are including this travel tip.

5. Normal airport essentials: With the added stress of trying to remain safe while traveling during a pandemic, we may find ourselves overlooking the basics. Whether it is a sweatshirt to keep you warm, a travel pillow to help you sleep, or headphones to listen to your favorite playlist, these essentials are just as important as they were pre-pandemic. By reserving a spot for your normal travel essentials in your carry-on, you help reduce any travel anxiety and maintain a little bit of normalcy on your trip.

Travel Tips: Flying with Pets

✖ By Alycia Williams

In some cases, our pets tend to be our best friends, and who wouldn't want their best friend to go on vacation with them? Traveling with your pet can be a real hassle, but if you follow the right [travel tips](#), you can make sure that everything is smooth sailing.

Here seven travel tips for flying with your pet.

1. Do your research: Regulations and fees vary depending on airline and whether your pet flies in the cabin or as checked baggage. Be sure to check an airline's history of flying animals.

2. Consider a pets-only airline: Pet Airways offers climate-controlled cabins outfitted with individual crates, and a flight attendant checks on the animals every 15 minutes. After landing, pets are given a bathroom break, and can be picked up by their owners at the airline's Pet Lounge at participating airports.

3. Pet papers: If you're traveling outside the country, find out what vaccinations your pet will need and if quarantine is required. Consult the database of animal import requirements for more information.

4. Prepare the carrier: Purchase a kennel that has room for your pet to turn around and stand without hitting its head. If your pet hasn't traveled before, spend some time getting the

animal used to being in the carrier.

5. ID tags: Attach contact information to both your pet's collar and its carrier. That way if your pet gets lost you will be contacted and no one else can claim your pet.

6. Exercise: Before the flight, play with your cat or take your dog for a walk. The more tired your pet is, the more likely it is to sleep during the trip.

7. Relax: Use lavender oil as an "association scent" to help your pet relax while flying. In the weeks before the flight, put a drop of oil on your hands at feeding times or before walks. Once onboard, the positive association will allow your pet to calm down and remain relaxed.

Travel Advice: The Best Games to Play on Road Trips

 By Alycia Williams

Road trips have the potential to be really fun, but sometimes it can be a long, grueling, and silent ride. Making the most of a road trip is important, and the best way to do it is with games. Avoid those silent moments with these [travel tips](#) on what games works best for road trips.

Here is some travel advice for the best games to play during a road trip.

1. The Alphabet game: In this classic road trip game that doesn't require a board or game pieces, players attempt to find words starting with every letter of the alphabet, going in order from A to Z. To make this game more competitive, someone can pick a category like groceries/food, animals, places, or famous people, and the people in the car will take turns naming items from that category that begin with ascending letters from A to Z.

2. 20 questions: One player thinks of a person, place, or thing. The others take turns asking yes-or-no questions; after each question, they get a guess about what/where/who it is. If they don't solve it after 20 questions, they lose.

Related Link: [Date Idea: Explore Love on a Road Trip](#)

3. Cows on my side: This simple kids' road trip game is a lot of fun for families driving through the countryside. When you see cows on your side of the road, yell "Cows on my side!" You get a point for each time you call a group of cows. If you spot cows on the opposite side, you can yell "Cows on your side!" and steal a point from your opponent. Passing a cemetery? The first person to yell "Ghost cow!" steals all the other side's points.

4. What am I counting?: In this guessing game one person starts counting something out loud as they see it... but they don't tell anyone what they are counting. The rest of the players have to figure out what they are counting.

5. Hum that tune: One player starts the game by humming a well-known song. The first person to guess the tune correctly gets to be the next “hummer.” It sounds super simple, but it’s often trickier than it seems!

6. Six degrees of movie fun: To begin this one, one family member names any actor. The next person names a movie the actor was in. The following person names someone *else* in that movie that hasn’t already been said, and so on going back and forth between movie titles and actors until someone is unable to answer.

7. Going on a picnic: This is a story memory game where someone says “I’m going on a picnic and I’m going to bring...” and then lists an item. The next person begins “I’m going on a picnic and I’m going to bring...” and must list the first person’s item before adding their own item. The list grows and grows and the first person to not be able to correctly list all the items is the loser.

Travel Tips During the Pandemic: How to Stay Safe on Planes

 By Alycia Williams

The COVID-19 virus has brought a lot of uncertainty to us all, especially when it comes to traveling. Though some people are

avoiding traveling by plane altogether, some have no choice or want to take the risk. [Travel advice](#) is well needed as you board planes during the pandemic.

Here are some travel tips for flying during the pandemic.

1. Keep the hand sanitizer close by: As you're going through the airport to get to your flight, you'll touch a lot of things and you won't always have access to soap and water to wash your hands. Have multiple travel size sanitizers handy, that way every time you touch something you can sanitize quickly.

3. Wipe the seat with disinfectant wipes: When you board the plane have some disinfectant wipes close by that way you can wipe off your seat before sitting in it. Don't forget to wipe off the arm rest as well as the inside pocket of the seat in front of you.

4. Keep your distance: Stay as far away as possible from everyone is the airport as you're waiting to board your plane. Don't sit next to anyone and don't stand near anyone.

5. Wear sunglasses: Since you can contract viruses through your eyes, some doctors recommend wearing protective eye gear.

Sunglasses can do the exact same job. Protect your eyes by wearing any kind of glasses.

6. Prepare for your flight: Leading up to your flight, get sufficient sleep, eat healthy, take vitamins C and D, and exercise in order to boost your immune system.

7. Point the air vent away: When you sit down in your seat, turn on your filter so it pushes the air, not on your face, but directly in front of your face, so it keeps any particles or viruses away from your face.

Travel Tips During the Pandemic: Is Flying on an Airplane Safe?

 By Diana Iscenko

The world is still in the midst of the COVID-19 pandemic. Even though cases in the United States are still rising in some areas, many states are reopening in phases. The threat of getting sick is still real, so many businesses are open with new social distancing measures in place to prevent the spread of the virus. This combined with the summer weather has caused many people to want to travel again.

So, is it safe to [travel](#) on an airplane right now? The CDC warns against making unnecessary trips anywhere, including on

airplanes. Air travel includes the time spent in security lines and airport terminals, both of which can bring you in close contact with people and frequently touched surfaces. Social distancing can be impossible on crowded flights, so you may be stuck within six feet of someone for hours at a time.

That said, if you need to get into a plane for a necessary trip—or if you're otherwise willing to take the risk—there are ways to travel as safely as possible.

Whether you're taking a mandatory trip or hitting a vacation destination, here are three travel tips for flying during the pandemic:

1. Pick Your Airline Carefully

Many airlines have implemented new safety requirements to lower the risk of staff and passengers being exposed to the virus. These policies vary from company to company, so it's crucial to research your airline's procedures before booking a flight. Most airlines are requiring everyone to wear face masks. Others are flying at half capacity, increasing the frequency of cleaning procedures or conducting temperature checks before allowing anyone on their airplanes. Airlines are being transparent about their requirements so you can fly on an airplane where you feel as safe as possible.

2. Masks and Sanitizers are Your Friends

You should be wearing a face mask the entire time you're

traveling, regardless of what the airport or airline recommends. It's also important to bring hand sanitizer and wipes to keep your hands clean and to sanitize the surfaces you'll be touching throughout the flight. If possible, skip using the bathroom while flying. You'll expose yourself to more germs walking to the bathroom and touching the surfaces while in there. If the flight has unassigned seats, try to sit by the window so you'll have less contact with those walking down the aisle.

3. Self-Quarantine at Your New Location

Traveling from city to city and state to state brings you into contact with countless people. You should self-quarantine for two weeks after your arrival if possible to make sure you didn't catch COVID-19 and won't get anyone else sick. This should be easy for those making necessary trips—like moving into a new home in a different city—but it's not great news for those looking to vacation. This is something you have to consider if you want to book a trip. Are you willing to take the necessary health precautions, even if it means sitting in a hotel room for two weeks?

Travel Tips During the

Pandemic: Should We Cancel Summer Travel Plans?

 By Alycia Williams

Vacations are typically booked a year or more in advance, but no one could have predicted the COVID-19 outbreak. Since new developments in the pandemic are happening every day, it's hard to say whether those travel plans that you booked over a year ago should be cancelled or not. If you need some [travel advice](#) when it comes to traveling during these confusing times, then you're in the right place.

Check out some travel tips for getting out of town during the pandemic.

1. Clean your hands often: Although you should be washing your hands often even if your aren't traveling, it's important to constantly wash your hands when you're out and about. Try to get to a sink to wash your hands with soap every hour or two.

2. Anticipate your needs: Bring enough medicine for your whole trip, pack a lot of hand sanitizer, include a cloth face covering for when you are out in public places, pack non-perishable food and bottled water, and whatever else you might need during the trip. This will avoid a panic session while you're away from home and need something that you can't get.

3. Follow state and local travel restrictions: While you are traveling, it is possible a state or local government may put into place travel restrictions, such as stay-at-home or shelter-in-place orders, mandated quarantines upon arrival, or even state border closures. Plan to keep checking for updates as you travel.

4. Use the restroom before the flight: Try your best not to use any public bathrooms. Use the bathroom before you arrive at the airport and avoid using the bathroom on the flight, if possible. If you must use it, of course sanitize your hands immediately afterward.

5. Wipe the seat with **disinfectant wipes:** At the airport while you're waiting for your flight, wipe down the seat at the gate, and then when you get on the plane, use another wipe to sterilize the arm rest and the inside pocket of the seat in front of you, along with the seat/headrest and tray.

Travel Tips: Traveling During the Coronavirus Outbreak

By Mario Martinez

COVID-19, better known as coronavirus, has been prompting

major changes around the world in order to combat the illness and stop it from spreading. Many events have been cancelled or suspended in response to the virus outbreak. In fact, the World Health Organization recently classified the outbreak as a “pandemic” and called on countries to take the appropriate measures in responding to it.

With all of this mind, you may be wondering how will this affect your travel plans and what precautions you can take to stay safe. Let’s take time to address all those issues and concerns with travel tips for our current state of affairs:

1. Symptoms

The Centers for Disease Control and Prevention (CDC) has listed the following as the main symptoms of coronavirus, which may appear anywhere from 2-14 days after exposure:

- Fever
- Cough
- Shortness of breath

Additional symptoms may include difficulty breathing, sore throat, pain or pressure in the chest, bluish lips or face, diarrhea, fatigue and headaches. If you have these symptoms or are just generally feeling unwell, you should try your best to avoid any travel and isolate yourself from others. You should also call your doctor and set up an appointment. But, do not go to the doctor unannounced, as that may spread the illness.

Related Link: [Health Trend: Hydration Hype](#)

2. How to Protect Yourself

As there is currently no vaccine for coronavirus, it's extra important to take steps in preventing the spread of the illness. The virus spreads by person-to-person contact, primarily by being around when an infected person sneezes or coughs. This is why many governments are encouraging or enforcing social distancing and isolation, especially if you live or have been in a place with an outbreak. As part of that, avoiding any unessential travel is key.

Besides that, you should frequently wash your hands with soap and water for 20 seconds after being in public and after coughing or sneezing. Using hand sanitizer works, too, but washing your hands is preferred. Also, when coughing or sneezing, cover your mouth or nose with a tissue, or use the inside of your elbow.

Cleaning surfaces (tables, toilets, door knobs etc.) daily is also recommended by the CDC. Specifically, using household disinfectant, alcohol solutions and or bleach is advised.

Wearing a facemask has become a prominent trend, but you should only wear one if you have shown symptoms or are caring for someone who is sick. Face masks are in short supply and should be prioritized for the sick and caregivers.

Related Link: [Travel Tips: Learn Your Rights as an Airline Passenger](#)

3. Traveling

The CDC states that all nonessential travel to destinations with ongoing outbreaks should be avoided. Currently that includes: China, Iran, South Korea and most of Europe. This recommendation is especially important for elderly people and those with chronic medical conditions, as they are at a higher

risk for the illness.

The Federal Government has already put some travel bans into place, and there will likely be more coming our way. Many airports are canceling or limiting flights to and from countries undergoing outbreaks. In addition, many airports are allowing travelers to reschedule or cancel their flights free of charge. Major hotel chains are also waiving their cancellation fees during this time, along with ground transportation groups like Amtrak and Greyhound

In terms of public transportation, services like the MTA are still running, with many subway and train stations seeing enhanced cleaning measures. However, due to how close you are to other people while on buses and subways, it is advised that you try to avoid using public transportation. Services like Uber and Lyft should be avoided for similar reasons. But if you do, follow the safety precautions described above.

The bottom line is that during the coronavirus pandemic all unnecessary travel should be avoided. With many corporations allowing their employees to work from home and schools moving to online classes, the steps are being made to stop the spread of this virus. If you are traveling in or have traveled in any of the countries undergoing outbreaks, it's important to take the proper steps in self quarantining and seeking a doctor if you have symptoms. While it is easy to be afraid of what is currently happening, by taking the right steps, we can all work together to stop the spread of coronavirus.

Maps for Moments: Your Special Someone in the Stars

☒ *“Silently, one by one, in the infinite meadows of heaven, Blossomed the lovely stars, the forget-me-nots of the angels.”*
– Henry Wadsworth Longfellow, *Evangeline: A Tale of Acadie*

Humanity has always been fascinated by the stars. A blanket of fireflies glimmering in the heavens above us, they have inspired scientific and creative minds for thousands of years. The ancient art of the zodiac runs parallel to academic astrology, today. Once upon a time, ancient peoples thought there were holes in the sky through which the gods looked down upon them. Or, that the earth was the center of a celestial sphere in which the stars were “glued” upon.

Later, Aristotle professed that the universe was made of up five elements: air, earth, water, fire, and aether. “Aether” was an unchanging element comprising the heavenly bodies – including the stars.

Then Roman, intellectual, heavyweight Pliny the Elder countered that “As regards the elements also I observe that they are accepted as being four in number: topmost the element of fire, source of yonder eyes of all those blazing stars.” So, the stars are made of fire.

In fact, the Ancient Greeks believed the misty cloud of stars, which we now know as the Milky Way, was literally that – spilt milk! They called it “Via Lacta”. It was the legendary astronomer Galileo who is said to have pointed his telescope on this milky mass and exclaimed in surprise – “It’s full of stars!”.

Today, stargazers all over the world study the night sky from observatories and space agencies. Since the discovery in 2004 of a space “diamond” (a white dwarf star made up largely of crystallized carbon). This is believed to be the swan song of all stars – and in about 5 billion years our sun will also be a diamond in the sky.

What do the stars mean to you?

Imagine, if you could turn back the clock and see the dark sky exactly as it was on one particular night. Which night would be most special to you and why?

There are many ways to commemorate a significant milestone or special someone- flowers, a framed photo or how about a personalized star map!

Today, it is possible to chart the stars and pinpoint the constellations in their precise positions on one significant date. Find the location data for a specific moment (your first date? Idyllic wedding site?) by looking up the latitude and longitudes for the GPS coordinates. Put the date and location into a website like <https://www.fourmilab.ch/cgi-bin/Yoursky> and you can see the moon and planets, named constellations, and deep-sky objects in one beautiful map.

You can either make your very own star map for free or choose to have a [professional print](#) framed and sent to your door. This takes the pain of doing your own astromaths away!

Choose from a myriad of designs and customize your own unique depiction of the starry night sky. This could be the perfect

way to immortalize an anniversary, engagement or the birth of a new star!

Couples that [travel](#) together stay together! Agreed? Yes, No, Maybe? Well, I can't agree more. Of course, I am the one who does all the planning, but he is sweet enough to gift me something before every trip.

Give your significant other any of these 5 gifts before a vacation for a sweet surprise

The last time we traveled together, he got me [Salomon tactical boots](#) the night before we were scheduled to take the flight, and I just loved the gift. It's really cool and sweet to give your better-half something before you are ready to leave. It keeps the excitement going! So, I thought of sharing some cool ideas for travel gifts with you. Why not make your partner happy, today!

1. Travel adapter: The last thing you want on checking-in in a hotel is to realize you can't charge your phone or device

because the room has a different type of plug point. So, why not gift your partner a universal travel adapter that covers every region in the world, and has USB ports too! The best part is – you, too, can use the travel adapter.

2. Travel pillow: We all have experienced that pain in the neck from sleeping in uncomfortable positions in the car or on flights. It's inevitable to fall asleep while you are on the road or in the air, and our neck pays for it later. Enter the world of travel pillow! Where you can place it around your neck so that the neck gets support around it, and you won't have to worry about it aching at the beginning of your trip.

3. Travel kit: A travel kit lets you stay organized while you are [on a vacation](#). The last thing you would want is to not find your things when you need them the most. After all, vacationing is all about being away from stress. So, hurry up and order one for your better-half.

4. Quick-Dry towel: You have to own it to believe it's magic! A quick dry towel is a blessing when you are on the road. You know how it is to pack a wet towel in your bag. So, ditch those thick towels that take time to dry and make your bag heavy, and give your partner this quick dry towel. He/she is going to thank you a lot.

5. Passport holder: Cool passport holders are trending these days. Many couples get a pair of them customized for themselves to flaunt on their vacation. You, too, can buy two passport holders, get them customized, and give one to your better-half. You can write your names or print your favorite picture on them as well.

Excited much? Well, look up the internet and order one gift right away. Don't wait for your next vacation to buy your partner a travel gift. You can thank me later!

Travel Tips: 5 Things to Know When You Travel to Europe

✘ If you've never traveled to Europe, there are certain things that are great to know before going. Europe is one of the best places for tourists to visit every year, as more than 500 million people visit Europe annually and the number of tourists is expected to rise in the coming years. Now that you've decided to set out on an adventurous trip, it is important to keep a few things in mind before setting off.

Here is a list of few things to know before you set out on a European tour:

1. Make Sure You Have a Valid Passport

Find your passport immediately after you decide to travel out of the country. Don't forget, most countries require your passport to be valid for six months after you gain entry into their state. It doesn't matter if you're going to a country for just a day visit. If your passport isn't valid for at least six more months, you may be denied entry. Therefore, you need to make sure you have a valid passport when travelling to Europe.

2. Book Flights in the Off-Season

The best way to get the maximum discount on your trip is to book a flight in off-season. Say, if you want to travel to Europe in summer, consider booking your flight in early

February or March. Similarly, whenever you want to visit, it is better to book 2 to 4 months before the actual date. Download an [EU flight delay compensation form](#) to find out about getting a flight upgrade in case there is a delay.

3. Pack Light

Most people who don't travel a lot internationally tend to over pack. One of my top tips for travelling is to pack as little as you possibly can. Keep in mind, the more you pack, the higher the stress of carrying it with you all the time. Your travel experience will be much better if you carry lightweight bags. Just carry essential items such as a first aid kit, a camera or cell phone for photos and videos, a minimal amount of clothes, and snacks.

4. Inform Your Credit Card Company

Call your credit card company and let them know before you leave for the trip. Once you book your flight, email them the dates or inform them over the phone. If you travel without informing, the company may block your credit card as soon as you use it in another country. Credit card companies scrutinize the bank account as soon as a foreign transaction is made, and they may put a hold on the account.

5. Download Google Maps

If you're traveling to a country for the first time, it is essential to download an app that helps in tracking your location. Secondly, if you're visiting a country where the native language is not English, it will be difficult for you to interact with the locals. Unless you have a translator with you on a business trip, downloading a location app (and maybe a translator app) will be a must.

If you don't want to worry about things at home while on vacation, it's essential to take a few minutes and review the following tips that can help you stay cool and worry-free.

Don't Neglect What has Taken so Long to Grow:

Most of your house plants will survive if you water them sufficiently well before you leave for your trip. They may end

up slightly wilted or limp until you return, but watering once you get back should revive them. If you don't want to risk it, you can ask someone to water your plants, but if no one can actually help you in this regard, there are some other steps you can take to protect them. If you are going on vacation in the warmer weather, close the blinds and shades to keep your house cool. Your house plants will need less water when they are cooler. Or, create a mini greenhouse before departing for a long vacation.

Secure Your House Before You Leave:

Carefully inspect your home before you leave. You can use a timer to turn the main light of your home on and off every day. Keeping a light on in the evening while your home is empty can be a good way to avoid the risk of theft and burglary. Set the timer so that the living room light will stay on from 7 to 9 pm. Make sure that the glow of the light can be seen through the window blinds from outside the house. Moreover, you can also use an exterior light that can prove to be a better deterrent than interior lighting. Therefore, you can also set one or two of those on a timer.

Take Care of Bills Payments While You're Away:

Always plan ahead in case of your bills. You would not like to be charged with a fine on a pending bill when you get home from vacation. In such a case, a [bill pay app](#) comes in handy. It's a good practice to pay your fixed bills in advance such as television cable, internet bill, and health insurance premiums etc. Just make the payment electronically before you leave. Moreover, you can also set up automatic withdrawal for your mortgage payments, so you never have to think about them when you are away. You can also have your bill charged to your credit card. Also, pay your rent in advance before going on a long vacation.

Lock and Secure Access Points:

Ensure all the access points are properly locked and secure. Lock all the doors as well as windows. Make sure to lock the door that connects your home and garage. Unplug the power access to the automatic garage door so that no universal remote can be used to gain access. Place a metal rod or a piece of plywood into the track of a sliding glass door. Put all your valuable belongings in a fireproof and safe place.
