With the holiday season in full swing, it's easy to have a family meltdown or a fight with your significant other. According to Mathew Dooley, co-founder of [Kapture](#), an audio-recording wristband that allows you to save and share moments in your life, the root cause of these fights is that people aren't listening. The technology of Kapture Audio allows you to “capture” the last 60 seconds of audio around you from the sleek wrist band design and allows you to save and send it to your smartphone. Once you hear something worth remembering – a great joke, a brilliant quote, or even a verbal contract – you can tap the watch in order to “capture” and it saves the audio from the last 60 seconds and stores it to your smartphone. You can also share, edit and publish the clips with the Kapture App. This technology can even save your relationship and love. Its inherent [relationship advice](#) is to become a better listener and a better partner this holiday season.
