Cupid's Advice:

Relationships do endure the good and bad times, but you have to know whether you should stay in them. Here's some tips to help you decide if you should stay or not:

1. The mixed signals: If your partner is constantly giving you mixed signals, it may be time to move on. You shouldn't have to worry about whether your partner truly cares for you, because he shies away from you often. If your partner doesn't show conflicting actions, you should stay.

2. Pain over joy: If you are more frustrated and miserable than happy, you should definitely move on! The person may not be right for you if you end up with tears every night, and that is very unhealthy for a relationship.

3. Justifying actions: Sometimes it may be hard to face the truth, but reality is reality. You may be uncomfortable with the thought of that person doing wrong, which results in you making excuses for them. See actions for what they are, and let them speak for themselves.
