This celebrity news has us curious. What are some things you can tell about a new relationship from a kiss?

Cupid's Advice:

This kiss obviously caused some sparks for Henderson, if he is still talking about it. It leads us to believe that a kiss can tell us a lot about a new relationship. Cupid has some thoughts:

1. You should enjoy kissing your partner: Kissing, especially in a new relationship, should make you happy. You should be in a great mood and smile after getting a kiss from your partner. If you are not talking about your kiss years after it happens like Henderson, then there might be a lack of chemistry.

2. If you don't enjoy it, don't fret: If your partner is not a great kisser, there is always room for improvement. It will get better as the relationship grows and you are more comfortable communicating with each other. Or even better yet, you can start communicating earlier about this in the relationship. However, if you are not feeling sparks, this is an indicator that there might be something lacking, so pay close attention to that.

3. It should come natural: Especially in a new relationship, you and your partner should want to kiss each other all the time. Like in all relationship aspects, if it doesn't come natural and it seems forced, you might have to look over your relationship.
