Cupid's Advice:

If you're in a new relationship and wondering where things are headed, take a cue from this celebrity couple, and consider these three ways to know if you have chemistry:

1. You're not afraid of PDA: Rose and Chmerkovskiy aren't shy when it comes to showing off their love on social media – and you shouldn't be either! If you and your partner are into each other, there's no reason to hide your feelings.

2. Pay attention to your conversations: You may be too distracted by his sexy smile to notice how you interact, but chemistry matters both in *and* out of the bedroom. If you can't wait to talk to your guy at the end of a long work day and never run out of things to say, it's a good sign.

3. The little things don't bug you: It's easy to be bothered by the way he chews his food or how his dirty socks never end up in the hamper. For the right person, though, it's just as easy to ignore those annoyances and focus on the good things about him instead.
