4. Maintenance is required for your extensions: Once you have your extensions, you need to be extra protective. In a period of 12 hours, you need to avoid water from touching them so the

glue on your extensions can dry. If you do come in contact with water, it will dissolve the glue and can sometimes cause redness due to the glue entering your eye. After the protection period is over, you need to gently brush your lashes before and after sleeping with a mascara wand to remove eye build up. You also need to brush them after you shower as well. Make sure that that you have mascara wands that you can throw away after brushing your extensions.
