In celebrity news, Khloe Kardashian’s boyfriend Tristan Thompson is tired from dealing with cheating allegations. What are some signs that your partner is being unfaithful?

Cupid’s Advice:

Being cheated on is a completely awful experience. Cupid has some signs to tell if your partner isn’t being faithful:

1. They’re keeping secrets: If your partner is hiding things from you, it definitely means there’s something up. Relationships should be open and honest and it’s not right if your companion is refusing to talk to you about certain things. But, it doesn’t necessarily mean that you’re being cheated on, it could be something else your beau is hiding, so make sure to talk to him or her about it.

2. Your partner seems bored: Less intimacy and connection in a relationship could be a sign that there is some infidelity going on. If your beau seems to lack interest in spending time with you, it could be a signal that they have been seeking comfort elsewhere.

3. Constant fighting: Sure, the occasional fight is normal, but if your partner is constantly trying to pick fights with you, it could be because they are trying to validate their reason for cheating (as in they want to believe your relationship is already on the rocks). If your beau is being constantly defensive and looking for ways to start conflict, then they could potentially be cheating on you.
