## Cupid's Advice:

While weddings are usually traditional, why not try switching it up for your engagement? Cupid has some advice on how to celebrate your engagement in a not so traditional way:

**1. Party time:** While throwing an engagement party is expected, having your party themed will be different. Celebrate your engagement with style, giving your guests something to remember. Whether you throw an 80's party or a beach themed party, make sure you celebrate your engagement the way you and your partner likes it.

**2. Food:** You know what they say, food makes the heart grow fonder. Invite close friends and family out to eat. While you may think you would have to go to a fancy restaurant, try something different! Going to a BBQ restaurant or something casual is not only cost effective, but it reminds your guests just how you want to celebrate.

**3. Take a trip:** A fun way to celebrate your engagement is to take a trip. While you don't need to go celebrate under the Eiffle Tower, going on a small trip would be exciting. Taking a road trip or jumping on a quick flight is a fun way to celebrate your new engagement. This trip doesn't necessarily

mean you have to bring the whole family, but it is an exciting way to celebrate.
