Cupid’s Advice:

Emotions can be all over the place after you go through the birth of a child, and it’s important that your partner supports you. Cupid has some tips:

1. Let her cry or get emotional: Don’t try to fix it. If she needs to cry, let her cry. Comforting her is the most important thing you can do. She needs time to process what happened during the birth and her feelings over becoming a Mom.

2. If she’s breastfeeding: Make sure she’s getting enough water while the baby nurses. Not enough water can leave her dehydrated and exhausted.
