Denim always seems to be making a comeback somehow. And it always comes back with a fresher style and cut than ever before. While bell bottoms have been a [fashion trend](#) for decades and have made several returns to the fashion scene, a different kind of jean has taken over today. According to *Popsugar.com*, the hottest jean trends today range from tight miniskirts made for a night out on the town to loose wide-leg crop jeans made for the perfect casual hangout.

# Denim is one of the most classic looks of all time. How can you turn a classic look into an unforgettable look?

Denim can almost be worn with anything. However, how to wear it in true [celebrity fashion](#) is the real trick. Cupid has some [fashion advice](#) on how you can be creative with this classic piece of your wardrobe:

**1. Denim mini:** Mini skirts have been making quite the comeback. They are a good go-to when you are not quite sure what to wear for a night out with your girlfriends. A denim skirt automatically looks more dressed up than a jean short, and is an easy way to enhance your look. You can pair it with practically any crop top or tube top you own as well.
