How do you prevent your lover from keeping you distracted from your work?

Cupid's Advice:

While a little distraction from your job can be a good thing, it doesn't help if it's contributing to poor performance. See

what Cupid has to say about preventing disturbances from coming between you and your mate:

- 1. Focus:** Just because you've added someone new to your life doesn't mean that you should forget about everything else. Manage your time between your partner and your life outside of him or her to prevent fallout in both.
- 2. Speak up:** If you can't find enough time to share between your professional life and your love life, talk to your significant other and ask for some breathing room. Your workload shouldn't suffer because of personal issues.
- 3. Be honest with yourself:** Dating can be quite time consuming in the beginning. Unless you can balance a serious commitment to another person, as well as keep up with your daily routine, you shouldn't add a relationship to your life just yet.
