**Cupid's Advice:**

Your child's needs must come first, and it can be difficult to

navigate the changes that come as a result of that. Here are some suggestions:

**1. Tone it down:** Some things you're used to doing may not be fit to do around a child, so everything you and your partner do is going to have to come into question.

**2. Lack of sleep:** Children require a lot of attention and you're going to have to sacrifice a lot of precious hours of sleep early on.

**3. Home improvement:** The room that was going to become your work-out room is going to have to become your baby's bedroom. Deal with it!
