Cupid's Advice:

Surviving a long distance relationship can be tough. Cupid has some tips on how to prevent letting distance loosen the bond:

1. Communicate: Make an effort to frequently communicate. You're probably both caught up in your daily routines, but make sure to schedule a regular time to talk to your loved one via skype or phone. You can also keep each other up-to-date via email and text, but it's important that you hear each other's voices.

2. Visit: Of course the sound of your partner's voice isn't always going to be enough. You'll need some physical contact in order for the relationship to persevere. Take turns making trips to see one another, and make sure that you share the responsibility equitably.

3. Trust: Starting a long distance relationship means unforeseeable changes and challenges in both of your lives. If your partner starts forming new circles of friends or engaging in new activities, don't assume the worst. Just take a breather and have faith that your partner will remain loyal to you.
