

# Remembered Forever 9/11

There are few significant events that get etched into our mind, ones that we're able to recall clearly no matter how many years pass by. And for all of us, September 11, 2001 will remain forever in our memories. We will never forget how the nation united as one as courageous firefighters and civilians attempted to save those who were inside the burning buildings. For the 2,973 innocent lives lost on that day, our prayers go out to their families. And may God bless the heroes of this country and the United States of America.
