How can you transition from having a single child to care for to two newborns, especially after six heavy procedures to get pregnant?

Cupid's Advice:

Prepare, prepare, prepare.

- 1. Stay well:** Maintain the healthy lifestyle you had while trying to get pregnant. Stay on top of doctor's visits, and recall tips from your previous pregnancy.
- 2. Keep your child involved:** Your firstborn may feel neglected if a new baby or two enter the picture. Make sure they receive love and attention, and ask for their input concerning their sibling(s) to be, so the bonding process starts early.
- 3. Lean on others:** Remember the strength of your partnership. If you're single, reach out to family and friends for support. No one should go through a pregnancy alone.
