

Blissful Shrinking: FaceFX Irons Away Wrinkles

This post is sponsored by Silk'n.

There are so many products on the market when it comes to improving skin texture, or reducing fine lines and wrinkles—from creams to Botox, to spa treatments and even plastic surgery. But, many of these are expensive, painful or require outside services. What if you could get a more natural, younger looking appearance in the comfort of your own home? Well—now you can!

There's an amazing new anti-aging device, [FaceFX by Silk'n](#) that allows just that. FaceFX uses a revolutionary new approach: Home Fractional Technology – a safe and effective method that provides stimulation of heat and light energy to multiple layers of your skin, without high levels of discomfort. This hand held light emitting diode (LED) device is extremely simple to use with quick results. It's used three times a week at first and once a week after that for maintenance. Each treatment session lasts 15-20 minutes and noticeable results appear within 3-7 weeks.

With winter here, who wants to trek through the snow for a youthful glow? Now is the time to ask your partner for the perfect holiday gift; one that will boost your confidence.

Right now, Silk'n is offering an exclusive holiday discount: 20% OFF [FaceFX](#). This is an amazing offer for a very limited time (until Dec 31 2011). Go to their homepage and use **DISCOUNT CODE: SEEME**.

They are also having a give-away throughout the months of December and January. 1-2 free units will be given each week to individuals who "like" them on [Facebook](#). This year, try the solution that will give you flawless skin and a great date night appearance.
