What are some ways to prepare your life during an unexpected pregnancy?

Cupid's Advice:

When you're planning to get pregnant and have kids, you already have some idea as to how your life will change. When it's unexpected, however, it can be a shock to your system.

Cupid has some advice:

1. Stop smoking and drinking: This one may be the most obvious course of action when you find out you're pregnant, but it's important to give up things that will harm your growing baby. Consuming a lot of caffeine is another thing you should avoid.

2. Settle into a stable home: When you're not planning a pregnancy, where you live and what you currently do may not be the best environment to raise a child. You have nine months, so make the most of them.

3. Establish a support system: During an unplanned pregnancy, make sure to lean on those family and friends closest to you. They can give advice or simply be a shoulder to cry on.
