How do you move on after a divorce?

Cupid's Advice:

After a divorce, you can feel like you've lost your entire world or your best friend, but it doesn't have to be so bad.

Cupid has some tips to help you stay positive and move on gracefully:

1. Don't waste time: After a split, a grieving stage is necessary, but don't let it take over your life because regret can be a difficult emotion with which to cope. Give yourself time to accept the past, settle into the present and embrace what the future has in store for you. Life is filled with ups, downs and unexpected turns, so be strong and carry on because things will get better again.

2. Get out of denial: The marriage is over, and there's no use in thinking about the "what if's," or the "if I would have done this," because you can't go back. The only way to move is forward with a new perspective on how you're going to learn from your mistakes and improve your life.

3. Find yourself: You can't be that person you were when you were with your ex, because life is going to be different without them. There's an authentic "you" in there somewhere, and maybe you haven't revealed it in a while, but it's time to be independent again.
