What are some reasons to keep your pregnancy quiet at first?

Cupid's Advice:

Pregnancy is a beautiful, exciting thing for everyone involved, but it can also be very complicated. Here are some reasons to remain silent about your baby news for a little while longer:

- 1. Check with doctor:** Home pregnancy tests are not always accurate. Before you spread the word, book an appointment with your doctor to be sure the test you used didn't mislead you.
- 2. Tell family first:** Avoid telling associates about this relationship step right away. Your family and close friends won't want to find out such big news from others, so be sure to let them know first.

3. Guarantee your baby is healthy: Ensure there are no complications with your pregnancy before spreading the news. If a complication occurs, it will make your experience even harder if you have to explain it to others.
