What changes can you expect during your second pregnancy?

Cupid's Advice:

Once you've already gone through the first pregnancy, you would think that the second one would be easier. That said, you have to deal with a big belly and another child around the house again. There are some changes you should expect during your second pregnancy:

1. More work: You may know how to react during certain situations when you are pregnant, but it will still most likely be more work. On top of dealing with the symptoms of being pregnant and maintaining your health, you have another little one running around the house to take care of.

2. Less worried: Even though it might be more work, you will become less worried over the little things. You know what you should and should not be feeling since you've already gone through it once.

3. Time will go by slower: Since you do already know what to expect, the pregnancy will most likely go by slower. The first time, everything is new so your sense of time is skewed.
