What are some ways to know that your partner is being unfaithful?

Cupid's Advice:

Being in a relationship, no one wants to find out that the person they trust the most is the one that is hurting them. Here are a few tricks on how to find out if your partner is being unfaithful:

1. Hot and cold: If your relationship has been on the rocks or unstable recently, that could be a huge clue that your partner is experiencing a wandering eye. When we are not happy in current relationships whether it be due to the spark dulling or constant arguments, we tend to look elsewhere to see if we are missing out on anything. Keep an eye out for your partner being out of tune with you emotionally and keeping you out of their schedule.

2. Excuses, excuses: Honesty is one of the most important ingredients in a healthy relationship. When you start hearing excuse after excuse, it's time to start looking for more clues. One late night at the office is understandable, but when the same excuse comes up over and over again, chances are it's not just an excuse anymore.

3. Sudden changes: Sudden changes in mood, behavior and scheduling may be indicators that your partner is unfaithful. Constant canceling and postponing plans that your partner has with you is a red flag. It may be a sign that your partner is seeing someone else, or it may be a warning that the spark is dulling in your relationship.
