Cupid's Advice:

Dating your co-worker? Yikes! That can be a tricky spot to be in, but here are some tips to help you out:

1. Keep it professional: In the workplace, try to remain as professional as possible. That means no public displays of affection or long strolls throughout the office. Save the mushy feelings for after work, not during.

2. Be open with your coworkers: While it may be frowned upon to date a fellow coworker, being open and honest about it may be better in the long run. If you bump into another co-worker outside of work, it may put you in a sticky spot if you and your partner are not honest about your relationship.

3. Support each other: We all have bad days at work or face obstacles we have to overcome. Support and motivate your partner from the sidelines. Do not fight their battles for them; they have to face their own problems at times.
