It's the weekend and you're ready to hit the town in style! But...what do you wear? You comb through your favorite magazines trying to find inspiration to no avail. It's 6:00pm, you turn on the music and all you hear is talk radio. You could use a cocktail but want something unique and different to start the weekend off right. What's a girl to do? Don't just sit there sulking. It's time to get your BFFs together and start the party right with Hpnotiq's "Primp &

Prep" website. The site has everything you need to look and feel just like your favorite celebrity before you hit the town!

Fashion: If you need fashion inspiration there is style advice and beauty tips.

Music: You can even turn on the Pandora music player and listen to your favorite songs while getting ready!

Drink Recipes and Cocktails: You will find great at home drink recipes and cocktails. I love that you can easily find a new drink to switch it up from the ordinary rum and coke. They offer ideas for new twists on sangria, mojitos, margaritas, and other creative blends. You can even upload your own concoctions for others to try through the website or on twitter @HPNOTIQ. There's something for everyone. Now your night can be better than ever with the Primp and Prep site. It's so great you'll probably want to use it during the work week! So get ready to let your hair down, music up!

But wait...there's more! Even your guy friends can get in on the action (if you let them). There are tips on how to pick up the hottie across the bar; what to say, and what to do.

The site just launched in September...we can't wait to Primp and Prep with the Hpnnotiq site this weekend!

Hpnnotiq is a trendy and fun brand that all women can enjoy with their friends. The vibe that the site gives off is fun and exciting, from the color choices to the stylish background. Just head on over and check it out for yourself dolls! But remember, you must be 21 years old to enter:
