How do you balance your relationship and your work schedule?

Cupid's Advice:

As a career woman with a busy work schedule, it can be tough to balance that with the relationship with your partner.

Cupid has some tips that may help:

1. Protect your private time: Make sure to schedule time for yourself. It's easy to get so caught up in your busy life that you forget about setting aside time to wind down. Missing your private time should be just as bad as missing a doctor's appointment!

2. Figure out what matters: More than likely there are things in your life that simply don't matter. It's a matter of putting the things that truly mean something to you at the front of the line – as your number one priority.

3. Get help: Just because you accept help from your friends and family doesn't mean you've lost control of your life. That's sometimes one of the hardest things to realize. Next time a friend offers to babysit for a night, take them up on it!
