There's no better time to have a first date than the spring. The birds are chirping; the flowers are in bloom; and you can *finally* wear your favorite sundress and sandals. This weekend, take some time out for a romantic walk in the park or a rooftop dinner at sunset. Embrace the warm weather and show off your spring style in adorable shoes by Lindsay Phillips.

You'll have no trouble picking out the perfect spring date outfit with these shoes. They're completely customizable, so you can add the perfect accessory to each shoe. The "strap" line allows you to opt for over 1,000 interchangeable options, while the "snap" line lets you choose from over 60 toe-centered snap-on brooches.

Slip on a pair of the Alex heels, the Devon wedges or the Courtney peep-toes for a dressy look. They'll all give you a little added height – perfect for your date to lean in for a kiss! Plus, both the Devon and Courtney shoes show off your flirty pedicure.

If your feet tend to feel tired after a long day at work, try out a pair of the Liz ballet flats. They come in linen, canvas and patent leather to ensure that you have a matching pair for any outfit, and the ruffle flower perched on the toe is the ideal accessory for a simple summer outfit.

While you may want to look sophisticated for your hot date, sometimes a more simple shoe is the way to go. Choose comfort *and* fashion by opting for a chic, updated flip flop. The Kelli flop is more than your typical sandal: you get the comfort and ease of a basic flip flop with an added pizzazz. The decorative stones on the toe base are sure to catch your partner's eye and round out your fabulous first-date outfit. Remember that you can purchase additional "snaps" to jazz up the flop even more! That way, you won't have to worry so much about deciding what shoes to wear – just slide these on and head out the door.

The best part of Lindsay Phillips' shoes are the bright colors. You'll have no trouble finding a pair to match your favorite bright yellow skirt or to stand out against a pair of cut-off jean shorts. The Kelli flop, for example, comes in black and stone as well as vibrant pink and bold turquoise. These colored flops even have a "candy-stripe" sole in bright colors that's both eye-popping and sweet, making them wearable outside of date night.

Our tester immediately noticed that these shoes would be the perfect travel partner. With the mix-and-match straps or snaps, life on the road is so much easier. Plus, your partner will be thrilled when he finds out he doesn't need to lug around an extra suitcase filled with shoes on your next

Caribbean getaway. Now, *that's* relationship bliss.

These shoes just scream “fun” – and guarantee that you’ll have a great time while wearing them!
