**Is having the same career as your spouse good or bad?**

**Cupid's Advice:**

Cupid knows that common interests make couples stronger, but that sometimes, opposites attract. So will matching career paths make or break a couple? Cupid has some insight from both sides:

**1. Separate, but equal works:** Being in the same career field as your spouse gives you a common passion, but working in the same building, or even for the same company, might not give each of you the space you need to be happy.

**2. Diversity adds spice:** On the other hand, having different careers, skills and passions can add a different dimension to your relationship, by allowing you to teach each other something new.

**3. Moderation is key:** In either instance, making sure you balance your career and how much time and effort you put into it with everything else you and your spouse hold dear – including each other – will help keep your relationship healthy.
