How do you keep gossip from affecting your relationship?

Cupid's Advice:

Rumors have a tendency to tear even the strongest lovers apart. Cupid has some advice about how to keep gossip from affecting your relationship:

1. Find the source: Going to the source of the problem will often help you resolve the issue at hand. Figure out why the rumor developed in the first place as this will help you decipher if it means more than you think. Relationships can be made or broken with these lies.

2. Be confident: The rumor at hand is about your life, so you're the only one who knows the whole truth. If you and your lover remain confident about the situation and don't act defeated then those around you are more likely to believe the lies being spread.

3. Stick by those who support you: Whoever started the gossip is probably looking to get a rise out of you or else tear you down. Don't let them! Stay close to your support system and people who you know you can trust. Don't let gossip get between you and your partner.
