**Cupid's Advice:**

There are certain traits that will have you running for the hills. Cupid has some advice for you:

**1. Lack of honesty:** Want to keep a relationship strong and growing? You need to make sure you do not lie about major things. We all tell little white lies, and even though they may be annoying, they won't totally break the deal. But, don't lie about things such as relationship status, medical history, children, or a criminal record if you want to make things work. Remember, honesty goes a long way.

**2. Jealousy:** Jealousy can turn from cute to bad very soon. In the beginning of a relationship joking about leaving your partner for someone else, or calling several times to say hello seems okay. But when your partner starts checking your phone or stopping by your place unannounced things might become dangerous. Don't let jealousy ruin something that could be great, so make sure you trust your partner because if you don't things can go sideways quickly.

**3. Not having your own life:** When you're in a relationship and your partner is your best friend it is one of the greatest feelings in the world. You have someone to spend lazy days with or have someone to help you through hard times, but be sure to maintain a relationship with your own group of friends. It's good to be friends and go out with your partners group of friends, but sometimes it is very important to go out with your own group of friends and then try meeting up after. Time apart only makes the heart grow fonder.
