By Kristyn Schwiep

*Fast & Furious 6* star Jordana Brewster and husband Andrew Form recently welcomed a baby boy. According to [People](#), the couple had their son Julian via a surrogate. And they're not done yet: They hope to add another child to their family someday. "I definitely want to have kids. I want two. I grew up with a sister, but I know Andrew would love boys. I'll take what I can get," the new mom said earlier this year.

**What are some advantages of using a surrogate to have a child?**

## **Cupid's Advice:**

Using a surrogate to have a child is a great option for couples who want to have a baby but aren't able or ready to go through a pregnancy on their own. So what are some of the advantages of surrogacy? Here's what Cupid thinks:

**1. You won't have to change your lifestyle:** Does your career require that you be in tip-top shape? Or maybe you want to continue your fast-paced schedule until the baby arrives. Using a surrogate gives you another option besides adoption if you and your partner are having trouble getting pregnant or simply don't want to slow down quite yet.

**2. You can still have a biological child:** If you are having trouble conceiving naturally, using a surrogate allows you to be genetically-related to your child. It's a great alternative to adoption.

**3. It allows same-gender couples to have a child:** If you are in a same-gender relationship and are ready to have a baby with your partner, this is a great option for you to expand your family.
