"I'm quite sensitive, and I do like a bit of grand gesturing, but that's just my ego," Pattinson told the Australian magazine. "I like to give people presents and I think of myself as the best gift giver, but only because I get stuff for myself and then make it work for the other person."

**What are some factors that go into your relationship style?**

**Cupid's Advice:**

Every relationship works differently and each individual in a romance has their own way of doing things. The more experience you have with the dating scene, the more you'll be able to identify what you like and dislike when it comes to connecting with another person. Cupid has some tips:

**1. Affection:** Some people crave a lot of attention and affection, while others can do without it. How you express yourself with your significant other can determine what kind of "dater" you are. How many times do you say 'I love you'? Do you constantly hug or touch your partner? Intimacy can keep a couple's bond strong and makes up for a long-lasting relationship.

**2. Sense of humor:** Having a great sense of humor can keep a relationship fresh and exciting. Also, if you ever find yourself in an awkward dating situation, you can always lighten things up with a joke or two.

**3. Honesty:** Let's face it, no relationship can go too far without honesty and trust. Being honest with your partner will help build communication and the level of trust you need in order to make the romance between the two of you last.
