How do you balance your career with your relationship?

Cupid's Advice:

It can be tough to make a relationship work when both individuals involved have busy careers. How can you maintain a healthy romance while still keeping up with your job? Cupid has a few tips for you:

1. Make time for each other: The only way your relationship will thrive is if you spend time together. It's that simple. Even if that means penciling each other into your schedules, make it a point to do something together. Have dinner with each other. Go see a matinee movie once a week. Do something together that both of you will enjoy doing.

2. Support each other: When your partner comes home from a long day's work, ask them about their day. This may not seem like much, but showing some interest in your significant other's job will work in your favor. If you show you care, they'll be sure to reciprocate those feelings toward your career.

3. Make some rules: Setting up boundaries will make situations a little more easier to handle. If you're living with your honey, set up a chore chart. You take out the trash one week, while your partner handles the dishes. Turn off cellphones after 8:00 p.m. for family time and make sure to have at least one day off together.
