Mariah Carey

Always known for living big, Carey not only had twins,

Moroccan and Monroe, at the age of 42, but they were born on April 30 -- Carey and husband Nick Cannon's third wedding anniversary! To celebrate the special occasion, the couple renewed their wedding vows in the hospital with help from Rev. Al Sharpton. But the pregnancy wasn't easy. She suffered a miscarriage in 2008, followed by acupuncture and hormone treatments to boost fertility before getting pregnant. Mariah Carey and Nick Cannon. Photo: Juan Rico/Fame Pictures
