How can your career lead to a stable relationship?

Cupid's Advice:

Balancing a relationship/dating and a career can be considered another job in itself. However, with the right person and the right career, it can be done with little to no trouble. Cupid has some ways this may happen:

1. On the same page: Being with someone who understands exactly what you are looking for and what you need is a breath of fresh air, especially when your career has consumed a good amount of your life. Despite all of this, the two of you have talked and are all for putting in the effort to make it work.

2. Time permits: Whether your work is super busy or whether it is more so laid-back, you can still be able to set aside some time for a little quality time and TLC with your partner. With a steady career, you have the opportunity to devote yourself to someone and it will not seem like another load added on.

3. Still willing to put in effort: If you and your partner are up for the challenge that may come along with having a relationship and a career (no matter the pace), it can certainly prosper. As stated before, communicate thoroughly and schedule time one for each other, and you are halfway there!
