

**Get Five Visible Skin
Perfecting Benefits in Just
Five Days**

This post is sponsored by [Jergens](#).

By Ann Luther

Nothing sparks this girl's confidence like flawless, beautiful skin can. When my skin is at its best from face to feet, I feel like a stunner, and I am ready to take on the world. When I want that coveted, effortlessly perfect look, I have always been a worshiper of the BB cream, but, until now, I have only

been able to find it for my face. Now, for the very first time in the United States, I can enjoy skin that's deeply hydrated, illuminated, visibly firm, even, and virtually flawless by using this all-in-one moisturizer for my face *and* body! It's [Jergens BB Body Perfecting Skin Cream](#), and it is fabulous.

I love it because it is so easy to get and use. I pick it up at my local grocery store, but you can get it at any mass retailer or drugstore nationwide for only \$12.99. It is a total steal for what you're getting out of it: five visible skin perfecting benefits in just five days. You can literally start using it on Monday and begin showing yourself off by Friday night. Also, it smells delicious. It's made with shea butter and coconut water and it makes my man go wild. What more could a girl ask for? Nothing!

I kept going on and on about my new radiant skin, so one of my co-workers April decided to go out and try it for herself. She called me about a week later and was raving, "You were so right! My skin has never looked or felt this good." Now, she's telling all of her friends about it. We are both obsessed and trying to bring everyone we know aboard the Jergens BB Body Perfecting Skin Cream train. Won't you join us?
