

Miley Cyrus

Becoming an overnight sensation was fairly easy for country cutie Miley Cyrus. With her father Billy Ray's success ahead of her, she has proven to be nothing short of a superstar. Growing up in Tennessee, the actress, born Destiny Hope on November 23, 1992, rose to stardom after she was cast in Disney Channel's hit show *Hannah Montana*. Starring as Miley Stewart who doubled as Hannah Montana, her fame quickly skyrocketed. She released her first studio album in 2007, which topped the charts and was the beginning of a wild ride. She eventually signed on for *Hannah Montana: The Movie*, and the movie's soundtrack produced yet another hit single for the star, only making her even more popular. Slowly leaving her "good girl" image behind, she began to transform into a more mature singer with hits like "Party in the USA" and "Can't Be Tamed."

During her Disney Channel days, Miley Cyrus was linked to boy bander Nick Jonas, and their [celebrity relationship](#) lasted for a year and a half. With her hit song "7 Things," the singer sang about her love/hate feelings for the hottie. She moved on in 2010 when she starred in *The Last Song*. Nicholas Sparks' romantic drama captured the hearts of many, but some could argue it was her chemistry with Liam Hemsworth that stole the show. The two took their on-screen love to the real world with their relationship and love and eventually got engaged. The famous couple and their good looks graced red carpets and magazine covers until their celebrity break-up in September 2013. The performer picked herself up and came back into the spotlight with a new side. Releasing her controversial album *Bangerz*, she showed off a more provocative, edgy look and sound. Most recently Cyrus and Hemsworth have rekindled their love and have been spotted out together. Miley has even been wearing the engagement ring Liam had given her before their split in 2013.
