Celebrity love can get sticky when the paparazzi capture infidelity. What are some signs that your partner is being unfaithful?

Cupid's Advice:

When it comes to infidelity there isn't always hard and fast

evidence to back up the cheating. But Cupid wants you to be aware of the signs of a partner who might be looking elsewhere for love:

1. Random schedule changes: Is your partner coming home a lot later or leaving suddenly with vague explanations? This could be a sign that they are meeting someone else or up to something suspicious. Don't be afraid to have honest conversations if you are feeling confused by these changes, communication is key to trust.

2. Phone is on lock and key: Do you notice your partner being extra protective or secretive about their phone? This can be a big red flag. Affairs can be much harder to track with apps, messaging tools and numerous outlets for your partner to be in communication with someone else. Should you hack into your partner's phone...absolutely not, but be aware of any changes they make when it comes to their personal technologies.

3. Personality shift: Is your partner having intense mood swings or becoming cold and distant? Careful here, you might be looking at a cheater. They might be defensive or angry towards you for what seems like no reason, but the reality is that it is stemming from guilt and fear of you finding out. Again you want to always be in direct communication with your partner about their feelings and your relationship. If you are suspicious, call your partner out!
