You won't find any romantic relationships here! What are some reasons to delay entering into a new relationship?

Cupid's Advice:

Sure; relationships and love are fun, but they aren't always what you need. Sometimes the best love advice is to take time for yourself and figure out what you want. Here are Cupid's reason for holding off starting a new romantic relationship:

1. Not willing to settle: Don't get into a relationship for the sake of being in an relationship. If you're waiting for your Mr. or Mrs. Right, then you can keep waiting and not settle for flings that you know aren't going to last.

2. Learning to be happy alone: It's not always the best idea to constantly rely on other people to make you happy and feel good about yourself. This is something you can do on your own! Being single will allow you to learn about yourself and learn how to make yourself happy.

3. Guilt free fun: Nothing is more exciting than seeing someone cute and giving them a wink or a smile as you walk by. If you were in a relationship you may have to second guess these small flirtatious acts. Being single allows you to dance with whomever you want without the guilt of hurting your partner.
